Valuable Information.

BOSTON, Dec 12, 1869.

Gentlemen: My only object in giving you this estimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit, until I commenced taking the VEGETINE; and before I had completed the first bottle I saw that I had got the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man; and my skin is smooth, and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of VEGETINE. To benefit those afflicted with Rheumatism, I will make mention also of this acute complaint, of which I have suffered so intensely.

C. H. TUCKER, Pas. Ag't Mich. C. R. R.
69 Washington street, Boston.

Every One Speaks Favorably,

EAST MARSHFIELD, Aug. 31, 1870.

MR. STEVENS: Dear Sir: I have been troubled with Canker from childhood, causing my mouth to be sore at times, so that I was unable to eat. Have taken many preparations, but with no effect until I tried your VEGETINE. After taking a few doses, I found it relieved the faintness at the stomach that always accompanies Canker humor; and by the time I had taken the third bottle my mouth was entirely cured. Have not been troubled with it since that time, which is eight months ago. I have recommended it to several of my acquaintances; and every one speaks favorably of its good effect.

Yours truly P. S. SHERMAN.

Report from a Practical Chemist and Apothecary.

BOSTON, May 1, 1871.

DEAR SIR: This is to certify that I have sold at retail, sixty-three dozen (756 bottles) of your VEGETINE since April 12, 1870, and can truly say that it has given the best satisfaction of any remedy, for the complaints for which it is recommended, that I ever sold. Scarcely a day passes without some of my customers testifying to its merits on themselves or their friends. I am personally cognizant of several cases of Scrofulous Tumors being cured by VEGETINE alone in this vicinity.

Very respectfully yours, H. GILMAN,
To H. R. STEVENS, Esq. 468 Broadway.

FURTHER PROOF.

SPRINGFIELD, Mc., May 4, 1872.

MR. H. R. STEVENS: My daughter has been out of health for about two years. About a year ago she had a tumor come on her side, which was very painful. I saw VEGETINE advertised in the Farmer, and sent to Bangor and got two bottles. She is now taking the second bottle; her health is much improved, and the tumor is going away as fast as it came. Every one in this vicinity knows what VEGETINE has done for my daughter, and I take every opportunity to recommend it to those who are not aware of its great value. Very respectfully,

MRS. SUSAN C. RANDALL.

BATHING IN CONSTANTINOPLE.

Olive Harper Takes a Turkish Bath.

I have read certainly not less than fifty times elaborate descriptions of genuine Turkish baths by Bayard Taylor, Ross Browne and others, and I had always been by imagination filled with combined ecstacies of being scrubbed with hot water and perfumed soap, and iced sherbet, and I made up my mind not to leave Turkey without having had that delightful experience. You know that I belong to the softer sex, and they do not bathe promiscuously here as in Baden Baden, Long Branch and many other fashionable places.

This bath where I went is for ladies alone, and not even the common herd being admitted, for the charge is very high. I have made a few friends among the natives since I came here, and can speak a few words of Greek (the predominant tongue,) and owing to my acquaintance with them, I got a glimpse, or rather a whole day's sight, of a paradise where man is excluded. The exterior of these baths is of the usual style, or no style of Turkish architecture—but the interior fully recompenses for the lack of beauty without. It is in the upper part of Galata and you go in sedan chairs, which wait for you, as you must take the extremest care of yourself in coming out of the bath, particularly at this season of the year. A cold taken after a Turkish bath is always fatal.

Four of us went, together with two servants, who carried our towels, bathing-dresses and lunch. It is an all day's job, and the ladies all take lunch with them. I had a number of very handsome and curious things given me at the exposition by the Egyptian and Turkish commissions, and among them were large bathing towels with borders of gold woven in; also, a bathing dress similarly decorated. My friends insisted on my taking them, and they made of me while in the bath a person of no ordinary importance, for, as it happens, no one but royal ladies are permitted to wear such in public baths; however, nobody interfered with my right to wear them, only admired me, not always from a distance.

On entering we were conducted to a large room, where we must undress and leave our things. I think there were nearly fifty women there in all stages of undress, who all paused to regard us with curiosity while we disrobed. Men can pull off their most sacred garments, toss them in a heap, and run about as if nothing were amiss, but somehow I felt as Eve did, when she made the discovery that she was a little too thinly clad for that time of the year.

A servant caught up our bathing dresses and left the room, beckoning us to follow. We ran the gauntlet of a hundred pair of eyes before we reached the divan where I was laid, like a defunct, still with no clothes on. I raised my head to see if I could not find a friendly towel or anything, but the attendant ducked my head back on the pillow again, as much as to say, "lie there." I did, but rolled my eyes around a little, and saw that there were at least twenty more women lying around in spots like myself; but they all seemed to take it very easily.

The room was very warm and grew warmer perceptibly, though how, I don't know, until I began to feel as if I should suffocate, until my heart beat painfully and I grew very faint, when one of the women gave me some lemonade, of which I drank two glasses. Then, all of a sudden, I began to perspire, and I looked like a pumpkin that had lain out all night in a heavy dew. I felt as if I was dissolving, and waited patiently till the end should come, and I should be but the transparent essence of what was once a very substantial body; but that time had not come. I was so sleepy that I felt like calling very hard names, when the woman came in and made me get up after she had rubbed me down like a race horse with a pair of very scratchy gloves, which left my skin as red as a lobster. Then, we all being in the same state, were led into another great, vaulted, marble-floored room, where the divans are made of marble, which is not at all soft to lie on. This room was warmer than the last, the more vapory, and the vapor was more strongly perfumed with sandal wood. After lying a few moments the marble grows soft, and a sense of the most delicious repose comes over you. You feel a soft languor and a dreamy content, and your eyes close, and you lay with a smile of exquisite laziness on your lips, and your imagination flies off in every possible direction, when the sweet repose is again rudely broken, and you have again to "move on."

Now, indeed, opens the door of paradise; you are led, still without other covering than nature gives you, into a large circular room, with marble pillars supporting the blue dome that is spangled with stars. All around the room are marble divans, and in the centre is an immense fountain, in the basin of which are sixty or seventy girls and women playing in the warm, perfumed water, or lying in all attitudes on the marble edges of the basin. The water rises in one grand column over fifty feet, and falls back into an upper basin, while the lower one is undisturbed, except by the beautiful white forms that it most delights to receive.

On all the divans lay women of all ages and complexions, even to some negresses, who only served to make the white bodies and polished limbs to appear more lovely than ever. Small fountains were placed at regular intervals around the large room and these the attendants poured continuously over the bodies of those who lay on the divans warm water, which was carried off by pipes.

A New Aquarium Car.

A new aquarium car forty feet long, and nine feet wide, with twenty wheels and an air-brake and Miller platform is being constructed at Charleston, N. H., and will shortly pass through this city on its way to California. A stationary fresh water tank, capable of holding five tons of water, is placed at one end of the car, and at the other end are two tanks holding a similar quantity of salt water, and between these are twenty portable tanks. Ice boxes are placed over the tanks and it is proposed to take the following varieties of fish: Lobsters and oysters from Massachusetts bay; tautogs, eels and weak-fish from Martha's Vineyard; striped bass, king fish and blue fish from New York harbor; black bass and glass-eyed pike from Lake Champlain, Michigan and Nebraska; horn pouts from Lake Champlain; fresh water eels from the Hudson river; shad from the Hudson or Connecticut river; cat-fish from Raritan river, N. J., alewives from Mystic river, Mass.

—The Journal of Chemistry thinks that the potato is deteriorating, and that a person should be detailed by Congress to go to South America and select specimens from the healthiest wild potato vines, bring them by good cultivation to a proper degree of perfection in their native habitat, then import them to this country, so that American agriculturists may obtain seedlings of original health and vigor of constitution.

Valuable Information.

BOSTON, Dec 12, 1869.

Gentlemen: My only object in giving you this estimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit, until I commenced taking the VEGETINE; and before I had completed the first bottle I saw that I had got the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man; and my skin is smooth, and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of VEGETINE. To benefit those afflicted with Rheumatism, I will make mention also of this acute complaint, of which I have suffered so intensely.

C. H. TUCKER, Pas. Ag't Mich. C. R. R.
69 Washington street, Boston.

Every One Speaks Favorably,

EAST MARSHFIELD, Aug. 31, 1870.

MR. STEVENS: Dear Sir: I have been troubled with Canker from childhood, causing my mouth to be sore at times, so that I was unable to eat. Have taken many preparations, but with no effect until I tried your VEGETINE. After taking a few doses, I found it relieved the faintness at the stomach that always accompanies Canker humor; and by the time I had taken the third bottle my mouth was entirely cured. Have not been troubled with it since that time, which is eight months ago. I have recommended it to several of my acquaintances; and every one speaks favorably of its good effect.

Yours truly P. S. SHERMAN.

Report from a Practical Chemist and Apothecary.

BOSTON, May 1, 1871.

DEAR SIR: This is to certify that I have sold at retail, sixty-three dozen (756 bottles) of your VEGETINE since April 12, 1870, and can truly say that it has given the best satisfaction of any remedy, for the complaints for which it is recommended, that I ever sold. Scarcely a day passes without some of my customers testifying to its merits on themselves or their friends. I am personally cognizant of several cases of Scrofulous Tumors being cured by VEGETINE alone in this vicinity.

Very respectfully yours, H. GILMAN,
To H. R. STEVENS, Esq. 403 Broadway.

FURTHER PROOF.

SPRINGFIELD, Mc., May 4, 1872.

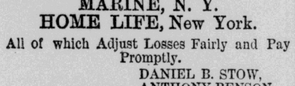

MR. H. R. STEVENS: My daughter has been out of health for about two years. About a year ago she had a tumor come on her side, which was very painful. I saw VEGETINE advertised in the Farmer, and sent to Bangor and got two bottles. She is now taking the second bottle; her health is much improved, and the tumor is going away as fast as it came. Every one in this vicinity knows what VEGETINE has done for my daughter, and I take every opportunity to recommend it to those who are not aware of its great value. Very respectfully,

MRS. SUSAN C. RANDALL.

BATHING IN CONSTANTINOPLE.

Olive Harper Takes a Turkish Bath.

I have read certainly not less than fifty times elaborate descriptions of genuine Turkish baths by Bayard Taylor, Ross Browne and others, and I had always been by imagination filled with combined ecstacies of being scrubbed with hot water and perfumed soap, and iced sherbet, and I made up my mind not to leave Turkey without having had that delightful experience. You know that I belong to the softer sex, and they do not bathe promiscuously here as in Baden Baden, Long Branch and many other fashionable places.

This bath where I went is for ladies alone, and not even the common herd being admitted, for the charge is very high. I have made a few friends among the natives since I came here, and can speak a few words of Greek (the predominant tongue,) and owing to my acquaintance with them, I got a glimpse, or rather a whole day's sight, of a paradise where man is excluded. The exterior of these baths is of the usual style, or no style of Turkish architecture—but the interior fully recompenses for the lack of beauty without. It is in the upper part of Galata and you go in sedan chairs, which wait for you, as you must take the extremest care of yourself in coming out of the bath, particularly at this season of the year. A cold taken after a Turkish bath is always fatal.

Four of us went, together with two servants, who carried our towels, bathing-dresses and lunch. It is an all day's job, and the ladies all take lunch with them. I had a number of very handsome and curious things given me at the exposition by the Egyptian and Turkish commissions, and among them were large bathing towels with borders of gold woven in; also, a bathing dress similarly decorated. My friends insisted on my taking them, and they made of me while in the bath a person of no ordinary importance, for, as it happens, no one but royal ladies are permitted to wear such in public baths; however, nobody interfered with my right to wear them, only admired me, not always from a distance.

On entering we were conducted to a large room, where we must undress and leave our things. I think there were nearly fifty women there in all stages of undress, who all paused to regard us with curiosity while we disrobed. Men can pull off their most sacred garments, toss them in a heap, and run about as if nothing were amiss, but somehow I felt as Eve did, when she made the discovery that she was a little too thinly clad for that time of the year.

A servant caught up our bathing dresses and left the room, beckoning us to follow. We ran the gauntlet of a hundred pair of eyes before we reached the divan where I was laid, like a defunct, still with no clothes on. I raised my head to see if I could not find a friendly towel or anything, but the attendant ducked my head back on the pillow again, as much as to say, "lie there." I did, but rolled my eyes around a little, and saw that there were at least twenty more women lying around in spots like myself; but they all seemed to take it very easily.

The room was very warm and grew warmer perceptibly, though how, I don't know, until I began to feel as if I should suffocate, until my heart beat painfully and I grew very faint, when one of the women gave me some lemonade, of which I drank two glasses. Then, all of a sudden, I began to perspire, and I looked like a pumpkin that had lain out all night in a heavy dew. I felt as if I was dissolving, and waited patiently till the end should come, and I should be but the transparent essence of what was once a very substantial body; but that time had not come. I was so sleepy that I felt like calling very hard names, when the woman came in and made me get up after she had rubbed me down like a race horse with a pair of very scratchy gloves, which left my skin as red as a lobster. Then, we all being in the same state, were led into another great, vaulted, marble-floored room, where the divans are made of marble, which is not at all soft to lie on. This room was warmer than the last, the more vapory, and the vapor was more strongly perfumed with sandal wood. After lying a few moments the marble grows soft, and a sense of the most delicious repose comes over you. You feel a soft languor and a dreamy content, and your eyes close, and you lay with a smile of exquisite laziness on your lips, and your imagination flies off in every possible direction, when the sweet repose is again rudely broken, and you have again to "move on."

Now, indeed, opens the door of paradise; you are led, still without other covering than nature gives you, into a large circular room, with marble pillars supporting the blue dome that is spangled with stars. All around the room are marble divans, and in the centre is an immense fountain, in the basin of which are sixty or seventy girls and women playing in the warm, perfumed water, or lying in all attitudes on the marble edges of the basin. The water rises in one grand column over fifty feet, and falls back into an upper basin, while the lower one is undisturbed, except by the beautiful white forms that it most delights to receive.

On all the divans lay women of all ages and complexions, even to some negresses, who only served to make the white bodies and polished limbs to appear more lovely than ever. Small fountains were placed at regular intervals around the large room and these the attendants poured continuously over the bodies of those who lay on the divans warm water, which was carried off by pipes.

A New Aquarium Car.

A new aquarium car forty feet long, and nine feet wide, with twenty wheels and an air-brake and Miller platform is being constructed at Charleston, N. H., and will shortly pass through this city on its way to California. A stationary fresh water tank, capable of holding five tons of water, is placed at one end of the car, and at the other end are two tanks holding a similar quantity of salt water, and between these are twenty portable tanks. Ice boxes are placed over the tanks and it is proposed to take the following varieties of fish: Lobsters and oysters from Massachusetts bay; tautogs, eels and weak-fish from Martha's Vineyard; striped bass, king fish and blue fish from New York harbor; black bass and glass-eyed pike from Lake Champlain, Michigan and Nebraska; horn pouts from Lake Champlain; fresh water eels from the Hudson river; shad from the Hudson or Connecticut river; cat-fish from Raritan river, N. J., alewives from Mystic river, Mass.

—The Journal of Chemistry thinks that the potato is deteriorating, and that a person should be detailed by Congress to go to South America and select specimens from the healthiest wild potato vines, bring them by good cultivation to a proper degree of perfection in their native habitat, then import them to this country, so that American agriculturists may obtain seedlings of original health and vigor of constitution.

The Daily Freeman

Kingston, Friday Morning, June 5.

Certain fanatics are endeavoring to work up an excitement over the alleged abduction and, may be, murder, of Morgan long ago by the Masons. We don't know what the Masons did, but there is at least as good evidence that Morgan died a natural death in Canada a few years since, as there is that he was foully dealt with. In either case the public cares less about the matter now than they do for a last year's Kidney potato.

The man Conroy who rescued the painter who was clinging despairingly to a rock at the brink of Niagara Falls, having been accidentally swept into the current, deserves to be catalogued with heroes. After all others had either abandoned the idea of trying to save the poor fellow in such imminent peril, Conroy tied a rope around his own body and after properly arranging for his descent and return, drifted down to the spot where the terrified wretch was clinging and brought him safely to shore. He should have the medal of the Legion of Honor.

MacMahon has backbone and pluck and gave the dilatory De Broglie ministry a specimen of it the other day. The business of the government was seriously disarranged by the petty squabbles held over the formation of a Cabinet, and losing patience at last, he told the politicians that he would nominate one himself; which he did, and it was accepted withal, introducing order and ending the crisis. It is quite apparent that France is so used to being governed by one-man authority that she can't get over the habit of expecting it.

As was expected, Colonel Thomas A. Scott has been elected President of the Pennsylvania Railroad. This was a foregone conclusion from the moment of Mr. Thompson's death. Although occupying a secondary position among the company's officers since 1859, Col. Scott has been practically the head of its affairs, so that the late election will in no important respect change the policy that has prevailed in the councils of the road. Mr. Scott has probably without exception the clearest and most comprehensive executive mind now employed on railroad matters on this continent.

There is certainly a strange form of insanity prevalent among our laboring population which impels them to enter into strikes for higher wages at the present time—which is the most unfavorable one possible for the success of such movements. Thousands of unskilled workmen are waiting for employment all over the country and step into the places of the malcontents as fast as they are vacated. We incline to think the trades-unions, however helpful to labor they may be in certain aspects of the case, are often the organized enemies of the men who compose them.

Venus (the planet, not the red-haired queen of love) is to make her semi-occasional transit on the 8th of December next. The scientific world is already highly excited about the coming event. All civilized nations,—among which we are egotistic enough to reckon ourselves—propose to send instruments and observers to the South Sea, from which the event will be most clearly visible. Our own expedition is nearly ready to get off. Its members have selected a barren rock in the ocean for their point of 'vantage and will, on their arrival, proceed to erect the necessary buildings for shelter and astronomical purposes. As several months must elapse before the planet will perform, the men of telescopes will have plenty of time to fish and swim. If Venus proves faithful to the predictions made for her guidance, no doubt a heap of desirable information will be added to the slender stock of what we know of the celestial arcana. That the government recognizes the importance of star-gazing is a hopeful sign for its morals and mentals, too.

The Sumner Sale.

Most of the private household effects of the late Senator Sumner were disposed of by auction the other day at his former home in Washington. The collection was various and valuable, Mr. Sumner having been a man of perfect taste in respect to the details as well as to the essentials of his life. Considered as the property of a man by no means wealthy, his works of art were noticeable for their variety and characteristic beauty. He had gathered them from all sources, without system or special forethought, taking what happened to suit his critical fancy when he met it, paying often any price within his means to obtain a treasure few others would have observed or coveted. The walls of his house became in the course of time completely covered with pictures and set with shelves holding statuettes or rare old bronzes. Visitors often spoke of the richness of the house and the culture and refinement of its occupant which an hour spent within it left upon them. Mr. Sumner was not solicitous about the mere matter of the usual regulation furniture needed in his own as in all homes, but invested time and thought in arranging his store of the rare and costly works of painter, sculptor and engraver. All this is gone. The owner, whose loving, brooding spirit drew his miscellaneous treasures into a unity of effect and feeling, being gone, why should not the empty shell collapse and follow? When the keystone of an arch is taken out, the falling, stone by stone, of all that composed the airy, graceful span is a natural result. There is something less ghastly in death itself than in the train of sequences which is dragged behind. The hard-handed farmer may lie still and cold beneath his roof and the event excite no comment, except such as is common to the one thing which happens to all; but when the old place, no longer cared for by his strength and industry, goes piece by piece under the hammer, then begins the real desolation. The man is gone and his works do follow him. Mr. Sumner's house, in which occurred during the eventful years of his residence in Washington a greater number of notable interviews and gatherings than in any other strictly private mansion, has vanished with the flame which was extinguished from the torch of his life. There is little to be said: it is the way of the world. The Senator's colored friends were more anxious than others, we see, to obtain *souvenirs* of their noble friend.

A New Era.

The brewers propose to try their hand at reforming the world. All sorts of millenial machinery having met with only limited success, they suggest that we see what virtue there is in beer to promote morality. So the men of malt assembled in Boston and passed resolutions to the above effect. The assemblage was called a Congress, to the employment of which grave and dignified word in their case no one can reasonably object. Many a Congress of other men than brewers has come and gone, leaving no better smell behind it than they will—perhaps, at times, not so good. The brewers hope "that a new era will be inaugurated in our entire social system." We must say we hope the brewers are prophetic in hoping so. There is no want more pressing, no need more imperative, than the want and need of a new era. Nothing, when realized, will be greeted with wider and more sincere popular approval. Poets have sighed for it and reformers of every breed and species have assured us that it would soon be ushered in. But methods vary, we perceive, among the best and sincerest people. The temperance folks expect to introduce the new era by overthowing all drinking customs and turning every drop of alcoholic and malt liquors into the cold and filthy gutter. Then they want to insure the continuance of the new era by prohibiting the manufacture and sale of the aforesaid beverages by the most radical and uncompromising legislation. Now, the brewers see the whole subject in a different light altogether. They want to stop the Simon-pure rumsellers from deluging the earth with the form of death and d—nation peculiar to them, but beer, they say, is decidedly another sort of thing, and just the tackle precisely with which to haul along the new era. The brewers take the extreme ground and don't hesitate to state it in words plain as the Institutes of Calvin, that "men cannot be angels while in the flesh." If that proposition had come from some authority a trifle nearer orthodoxy than a Congress of Brewers, we should take great comfort in believing it. It is a discouraging thing to be expected to be an angel when one observes the terrible failures to square up to that high standard of character which lie all around us. And if we could be dead certain that the brewers know that angelhood is not demanded of us "while in the flesh," we should feel less nervous than we sometimes do under the opposite theory. And the deduction that the brewers draw from the anti-angelic premise must be allowed to be business-like and to the point: if we can't be angels and ought not to fool away time trying to be angels, then let us drink beer. The "fanatical dreamers" and "would-be moral reformers" will dispute this conclusion, we suppose, and the brewers look for them to do it. Well, we shall be glad to hail the new era when it arrives, and if whiskey could give place to beer it is not impossible that it would soon come hopping along. Anyway, there is a pleasant novelty in ale as an advocate of sobriety.

CURRENT TOPICS.

—The pastors of the English Church are learning to preach without notes. But gold is legal tender over there.

—The idea of preserving Mackinaw Island as a national park, is a good one. We cannot have too many parks.

—Congress draws near an adjournment and the truly loyal papers are preparing their laudations of its good deeds. Well, some people are satisfied with very little.

—The Albany Journal don't like the idea of erecting a monument to Fisk, Jr., and sending his "pernicious example" down to posterity thus glorified.

—"The Innocents Abroad" and "The Rural Roosters" are among the names with which the excursing editors are greeted down south.

—Rochefort expects to see a republic established in France, but not before another bloody fight. He expects to make another rush for liberty.

—The elder Fisk is traveling as agent for a Boston house, which he says he does, not to earn a living, but to keep his mind from pondering on his troubles.

—What a nice thing it is to own a lot of gay young Princes. Wales is $300,000 in debt and Parliament is to be asked to relieve him. Yet there are debtors' prisons in England.

—Setting a thief to catch a thief has actually been practiced in New York, where a police officer has just been identified as the man who stole a lot of diamonds from a Brooklyn jeweler.

—The Czar don't seem to be of much consequence after all, for Queen Victoria snubbed him by going off to Scotland before he left for home. She is piqued because he insists that Alexandrowna shall rank next to the Princess of Wales at court.

—Sawyer don't scare worth a cent. He says neither the Ways and Means Committee nor the combined pens of the country can drive him out of office. A modern Ajax—or jackass, which? Somebody'll have to nitroglycerine him.

—Strikers seem, as a general thing, to possess no common sense. Just now business is very dull and there are scores of men ready to take every vacant position, yet the laborers, bricklayers and stage drivers have inaugurated strikes, all of which have failed, as it was a foregone conclusion that they would.

—It isn't a very comfortable thing to be a Czar. Three thousand policemen, all the detective force in London and 4,000 soldiers guarded Alexander of Russia, during his visit to London, to prevent his being shot. We'd rather be plain Aleck and feel safer.

—We are to have the old scientific fight between Admiral Wilkes and Sir James Ross, of the British navy, renewed about the Antarctic Continent that Wilkes claims to have discovered and which Ross says isn't where Wilkes located it. Wilkes ought to have tied it fast so it could be found when needed.

—The English husband of the lower class is very often a great brute and beats his wife most shamefully. A bill is proposed in the British Parliament making the offence punishable by flogging. There is equal and exact justice in this, and the hubby who gets a sound thrashing himself for beating his wife won't feel much like doing it again.

MISCELLANEOUS ITEMS.

—The imported horses used in Barnum's Roman Hippodrome in New York city, for flat and hurdle racing, are in many cases pure thoroughbreds, and of distinguished pedigree.

—The canal boat Richard, loaded with coal, ran against the railroad bridge at Troy on Tuesday afternoon, which caused her to sink.

—Potato bugs have made their appearance at Auburn. Major Carpenter, agent of the prison, lately exhibited a number of the destructives discovered on his farm. They have the ten stripes and other characteristics of the Colorado pest, and are to be dreaded as much as the western species.

—A music box fixed in a tree in the cemetery at Waterloo, Seneca county, discoursing divine music, set to playing by means of strings extending to a neighboring barn, has been exciting the frenzied curiosity of Waterloo lately. Until the waggish trick was discovered the citizens enjoyed the lugubrious sensation of a haunted graveyard.

—The Springfield Republican says: "The black flies collected on the track of the railroad between McAdam and Canterbury, Me., in such numbers, the other day, that they stopped a train of cars, acting like grease, and sand had to be applied before the cars could go on.

—Several thousand young Parisian girls, members of the Society of Enfants de Mary, went on a pilgrimage to the Cathedral of Notre Dame, recently. The line of carriages conveying them stretched over a mile. Each pilgrim was robed in white and held a torch in her hand; the cortege represented every rank of society from the grand dame to the poorest of the poor.

—A match in bread making took place last Wednesday in the Female Seminary of Hartford, under the direction of Miss Catharine Beecher. Four married women and the professor of chemistry were the judges. They tested the bread with butter, without butter, and finally with milk. Miss Mary Fitzgerald got the first prize of $5 for wheaten bread, and Miss Lily Fitzgerald the second prize of $3, and three prizes of $2 each were taken by three other girls whose names are not given. For brown bread Miss Ann Fitzgerald got the first prize and Miss Talcott the second.

LONDON, June 4.—Advices from Spain state that Legueitis, a maritime town in the province of Biscay, seventeen miles E. N. The Electoral Bill.

PARIS, June 4.—The Assembly to-day passed the electoral bill to its second reading by a vote of 393 ayes to 318 nays. Louis Blanc and M. Gambetta opposed the bill, and at the conclusion of their speeches received a perfect ovation from the Left. MM. Batbie and Dufavre advocated the bill.

The Right Centre have issued a programme, drawn up by Dukes de Broglie, d'Audiffret-Pasquier, Goulard and Lavergne favoring immediate organization of the supporters of MacMahon, and advocating his continuance as president of the republic and the maintenance of a political truce at the end of the present seven-years term, or in event of the occurrence of a vacancy in the presidency in the meantime. The Left Centre are dissatisfied with the programme as not conceding enough to them.

THE NATIONAL CAPITAL.

Disgusted with Civil Service Reform.

WASHINGTON, June 4.—In the House the committee on reform in the civil service have adopted a resolution that they do not recommend any further appropriation to carry on or experiment in so-called civil service reform in the manner in which it has been carried on. The vote was—yeas, Butler of Massachusetts, Luttrell of California, Sheats of Alabama, and Whitehouse of New York, 4; nays, Kellogg and Willard of Michigan and Willard of Vermont, 3; present but not voting, 1. Butler explains that he did not submit as a result of the deliberations of the Judiciary Committee the report recommending that the fine imposed on Susan B. Anthony be remitted, but merely that it might be printed for consideration of the committee, which will take place to-morrow.

A member of the conference committee on the finance bill said to-day that indications continue favorable to an agreement of views.

Bristow Sworn In.

Oath of office as Secretary of the Treasury was to-day administered to Gen. Bristow by Chief Justice Carter of the Supreme Court of the District. The ceremony took place in the President's room at the Executive Mansion. After the oath had been administered Secretary Bristow went to the Treasury Department and immediately entered upon his duties. During the afternoon he was called upon by the chiefs of bureau of the Treasury, who came in a body to pay their respects to the new Secretary. There were present when the oath was administered the President, General Babcock, Associate Justice McArthur of the District Supreme Court and Mr. Luckey, Private Secretary to the President.

The President to-day signed the commission of Judge Richardson as Associate Justice of the Court of Claims.

Congress Petitioned by Publishers.

Petitions signed by some of the leading periodical and newspaper publishers of New York, Boston, Philadelphia and Cincinnati have been presented in the House and referred to the Post Office Committee. The petitioners, in view of the Postmaster General's recommendation of compulsory payment of postage on newspapers and other publications at the office where mailed, according to weight of mail matter delivered and not according to number of copies sent, suggest that the rate shall be fixed at one cent per pound on newspapers and two cents per pound on all other periodicals.

Sawyer Says He's Going to Quit.

Assistant Secretary of the Treasury Sawyer will tender his resignation to the President, inasmuch as he wishes to save Secretary Bristow from any embarrassment on his account. This statement is made on the authority of Sawyer himself.

THE ST. LOUIS BRIDGE.

Opened to the Public.

ST. LOUIS, June 4.—The bridge across the Mississippi River was opened to-day for the passage of wagons, and a steady stream of vehicles passed over it all day.

TEXAS.

Jersey City's Defaulting Treasurer.

GALVESTON, Texas, June 4.—A special dispatch to the News from Brownsville on the 4th says Lieut. Smith and special police officer Eakin left there May 8th with an escort of Mexican cavalry to overtake and arrest Hamilton the defaulting Treasurer of Jersey City. They went to San Luis Potosi, following Hamilton's trail, which they struck at San Fernando. At San Luis they were only twelve hours behind Hamilton, but were informed by the District Judge that if they attempted to arrest Hamilton without approval of the warrant by the government of the state they would be arrested themselves. This warrant he stated must explain Hamilton's crime, and Gov. Canales of Tamaulipas should make requisition on other Governors. The Judge intimated that upon the payment of certain sums he would have Hamilton arrested. This they could not do, and returned without the prisoner.

MASSACHUSETTS.

The State Constabulary Bill.

BOSTON, June 4.—The Senate to-day passed the bill abolishing the state constabulary over the Governor's veto by 21 to 10. The question will probably come up in the House tomorrow.

SAN FRANCISCO, June 4.—The Chinamen who confessed being the murderers of Omera in Del Norte county were lynched by a mob at Happy Camp, in that county.

METROPOLITAN NEWS.

Oswego Midland Railroad.

NEW YORK, June 4.—At a meeting yesterday of the second mortgage bondholders of the Oswego Midland Railroad, Abram S. Hewitt, Trustee, said the road was now earning enough to pay current expenses. He said that the first mortgage bondholders were about to foreclose; and he didn't think they could be prevented. Representatives of the first mortgage bonds said it was their intention to give all interests a fair representation in the reorganization, provided there was a practical disposition to assist in placing the road on a sound basis. Mr. Hewitt was relieved from the Trusteeship, and a committee of five was appointed to represent the interests of the second mortgage bondholders, and to confer with Mr. Hewitt and the first mortgage bondholders.

That Reciprocal Treaty.

The Chamber of Commerce to-day adopted resolutions strongly in favor of a liberal and just reciprocity treaty between Canada and the United States as to commerce and navigation. A memorial was ordered prepared in accordance with the spirit of the resolutions and forwarded to the President, Secretary of State and the two Senators from this state. A committee of five was also appointed on canal and railroad legislation to consider the subject of cheapening transportation by those routes, and to co-operate with similar committees from other commercial bodies on that subject.

Another Street Car Tragedy.

A non-society cooper named Peter Smith, in the employ of Lockwood Brothers & Hally, oil refiners, on leaving work to-night was assaulted with a belaying pin in a street car by a union cooper named Cunningham. Smith drew a revolver and shot Cunningham in the abdomen, inflicting a mortal wound. Smith surrendered himself.

Election of Grand Lodge Officers.

The Masonic Grand Lodge elected James W. Husted of Peekskill Grand Senior Warden, Levi H. Gamo of Watkins Grand Junior Warden, John W. Simons Grand Treasurer and James M. Austin Grand Secretary. The installation of officers takes place to-morrow.

THE REFORMED SYNOD.

Report of the Committee on Union with the Presbyterians.

POUGHKEEPSIE, May 4.—The second day's proceeding of the Reformed Synod consisted mainly in the appointment of standing committees and reception of communications and reports. The majority and minority reports of the committee appointed at the last session of the Synod to confer with the Presbyterian Assembly regarding union with that church were read to-night. The majority favor further consideration of the matter, while the minority hope that the question will rest and the union come about, if at all, as the result of the deliberate, well-informed and general choice of the members of the church. Discussion of reports was made a special order for Tuesday morning next, after roll call.

THE STATE CAPITAL.

The Temperance People.

ALBANY, June 4.—The Executive Committee of the New York State Temperance Society held a meeting in this city this afternoon. It was resolved to take measures to hold county conventions throughout the state with a view to organization for the coming political campaign. The state convention will be called, with reference to political action, prior to the fall election.

The New Capitol Superintendent.

Governor Dix has confirmed the appointment of James W. Easton as Superintendent of the building of the New Capitol.

NEW HAMPSHIRE'S GOVERNOR.

His Inaugural Message.

CONCORD, June 4.—Gov. Weston was inaugurated to-day. His message represents state finances to be in a sound condition, the revenues amounting to $740,000, and total expenses to $434,000. He discusses the temperance question, expressing his belief that entire prohibition is against the public sentiment of the state, and favors a license law.

THE OREGON ELECTION.

Returns Incomplete, but the Republicans Ahead.

SAN FRANCISCO, June 4.—Election returns from Oregon so far give Williams, Rep., for Congress, 4,078, Ludlow, Dem., 3,721 and Davenport, Ind., 2,900. Tolman for Governor, has 4,554, Grover 4,191 and Campbell 3,462 with seven counties to be heard from.

THE ANTI-SECRET SOCIETY CONVENTION.

Those Dangerous Masons.

SYRACUSE, June 4.—In the Anti-Secret Society Convention the Committee on Resolutions reported a long series of resolutions, mainly an indictment of Free Masonry, refacedby the following preamble:

WHEREAS, In the continued existence of secret, oath-bound fraternities we recognize a conspiracy against all who do not belong to them and a standing menace to the religion of Jesus Christ, as well as to republican institutions, which draw their life from it, and

WHEREAS, An organized resistance to Free Masonry and its kindred classes is imperatively demanded of all who love our blood-bought institutions.

After a discussion the resolutions were unanimously adopted. A plan was adopted to extend the membership to 100,000 the present year. Members' fees were fixed at twenty-five cents a year and life memberships ten dollars. A letter to the President was adopted, to be signed by the officers, protesting against the proposed Masonic dedication of the Chicago public buildings. A constitution and by-laws embodying matters indicated were reported and adopted.

Formation of a New Political Party.

SYRACUSE, June 4.—The afternoon session of the Anti-Secrect Society Convention was turned into a political meeting. About 200 delegates were present, and Donald Kirkpatrick of Syracuse presided. President Blanchard of Wheaton College submitted a preamble and resolutions for the formation of a national political party opposed to secret societies. After long debate and some amendments the report was adopted. The name of the party is to be "The American," and a platform of principles is to be framed by a committee of one from each state. A national convention is to be called to nominate presidential candidates. Debate was very warm on a proposition to embody the name of God in the Constitution as a plank in the platform, which was finally adopted. The evening session was devoted to the reading of reports of Committees on Finance, on Nomination of Officers, on Enrollment and on Adoption of Constitution and By-laws. Pittsburgh, Pa., was selected as the place of holding the next annual convention. Addresses were delivered by Rev. J. R. Baird of Pennsylvania and Mrs. Dr. Miller of New York. The convention then adjourned *sine die*.

—The rumor that the Harmony Mills at Cohoes were about to close is revived. The New York Bulletin says the prices of prints are declining, and that "it is stated on apparently good authority that no reduction will be made in the price of Garner's prints, and that the mills will be closed rather than submit to further concessions." The cloth for the Garner prints are made by the Harmony Mills, of which Garner is the chief stockholder.

UNITED STATES CONGRESS.

SENATE.

WASHINGTON, June 4.

Mr. SCOTT, from the Committee on Finance, reported unfavorably upon the resolution submitted by Davis and the amendment thereto of Pratt calling upon the Secretary of the Treasury for a statement of the balance due from the disbursing officers of the United States, names of delinquents and what steps have been taken to recover amounts due, and asked that the committee be discharged from further consideration of the subject. So ordered. Mr. Scott said the committee reported unfavorably on the resolution on account of having received information from the Secretary of the Treasury that it would require from three to six months to collect and prepare the information called for, and involve an expense of $75,000.

The bill relieving Fitzhugh Lee of Virginia from political disabilities passed.

The morning hour expired and the Senate resumed consideration of Windom's transportation bill.

Mr. HAMILTON of Maryland opposed the resolution, and said there was a great movement in the west known as the Granger movement, and this resolution was for the purpose of capturing it. As a Democrat he could not recognize the right of Congress to commit the government to the establishment of such a system of improvements. He did not care for the party, but looked to the interest of the whole country in the matter, and would vote against the resolution.

The Chair laid before the Senate the resolution of the House disagreeing to the amendments of the Senate to the bill amending the charter of the Freedmen's Savings and Trust Company.

Mr. SHERMAN moved the Senate insist upon its amendments, and grant a conference. Agreed to, and the Chair appointed Sherman, Scott and Bayard as members of the conference on the part of the Senate.

At five o'clock the Senate adjourned.

HOUSE.

Mr. HOOPER of Massachusetts, from the Committe on Commerce, reported a bill for the establishment of life-saving stations and houses of refuge on the sea and lake coast, and to promote the efficiency of the life-saving service. Passed.

Mr. STANARD of Missouri, from the same committee, reported a bill deepening the channel at the mouth of the Mississippi River by dredging or otherwise. Passed without discussion. The bill proposes to have the work done by contract.

The Senate amendments to the bill in regard to savings banks and the Military Academy appropriation bill were concurred in.

The House then resumed consideration of the bill, which was up yesterday, for the improvement of the mouth of the Mississippi River, authorizing the work to be done by James Brads. Debate was continued by Sypher of Louisiana, Hawley of Illinois and Sheldon of Louisiana against the bill and Lewis of Tennessee and Stanard of Missouri in support of it.

After further debate the bill went over until to-morrow.

The House at 4:30 took a recess until 7:30, the evening session to be for debate only, on the condition of the Washington monument.

EVENING SESSION.

In the House evening session Chipman, Delegate from the District of Columbia, made a speech advocating the appropriation of $300,000 for the completion of the Washington monument. Speeches were also made by Storm and Ward of Illinois and Ward of New Jersey and Cox of New York.

Consumption is a disease so common that a description is scarcely necessary, yet the causes are varied. Consumption is not contagious nor hereditary, but the general constitutions may follow one generation after another, and be from their physical organization more easily affected by this disease; but the chief are in neglecting the laws of nature, too much confinement in an unhealthy atmosphere, sudden colds, catarrh, great and continued exposures, impoverishing of the system by other diseases; in fact there are almost as many cases as there are victims; and one of the most fatal is that of young ladies who expose their health and endanger their lives in the most reckless manner when attending balls, parties, operas and other places of amusement, which result in Consumption and an early grave. It chiefly attacks the young, the fair and the amiable, and is considered incurable. In certain northern latitudes it prevails with the greatest violence, owing, probably, to the frequent atmospherical changes from heat to cold, dryness to dampness, &c. The general symptoms of this disease are an habitual cough, morbid expectoration, pains in the breast, casual finish or feverish heat in the hands, feet and shanks, change of voice, thin fingers and nose, bent or crooked nails, falling of the hair, &c. This disease has been divided into three, four, and even five stages by medical writers; but, for practical purposes, three stages will be found best adapted to the course of the disease. To entirely cure this cough and eradicate all the early symptoms of this fatal malady, Dr. J. BRIGGS' THROAT AND LUNG HEALER is thouroughly adequate and sure.

IN THE FIRST OR INCIPIENT STAGE OF CONSUMPTION, there will be found some difficulty in breathing, perhaps amounting to a shortness of breath, more especially in exercising. Cough is a very early symptom; it may be slight and hacking at first, but gradually becomes more and more distressing and frequent; at first it is dry, but is soon attended with an expectoration of a thin or frothy character, or resembling mucus. Very frequently the expectoration will be streaked with blood, and sometimes the first observable symptom of CONSUMPTION will be more or less profuse bleedings from the lungs. Until recently, that terrible disease, CONSUMPTION, has been considered an affliction beyond the reach of medicine or the healing art. But a new era in the management of Palmonary Disease seems to be dawning upon the scientific medical world; and since many distinguished physicians have acknowledged that Consumption can be cured, few there are who attempt to controvert their opinion. To those singled out as victims to that fatal malady we offer a remedy, sure in its results to bring back health to their poor weakened frames and joy to the hearts of their friends, Try Dr. J. BRIGGS' THROAT AND LUNG HEALER.

The Daily Freeman

Kingston, Friday Morning, June 5.

Certain fanatics are endeavoring to work up an excitement over the alleged abduction and, may be, murder, of Morgan long ago by the Masons. We don't know what the Masons did, but there is at least as good evidence that Morgan died a natural death in Canada a few years since, as there is that he was foully dealt with. In either case the public cares less about the matter now than they do for a last year's Kidney potato.

The man Conroy who rescued the painter who was clinging despairingly to a rock at the brink of Niagara Falls, having been accidentally swept into the current, deserves to be catalogued with heroes. After all others had either abandoned the idea of trying to save the poor fellow in such imminent peril, Conroy tied a rope around his own body and after properly arranging for his descent and return, drifted down to the spot where the terrified wretch was clinging and brought him safely to shore. He should have the medal of the Legion of Honor.

MacMahon has backbone and pluck and gave the dilatory De Broglie ministry a specimen of it the other day. The business of the government was seriously disarranged by the petty squabbles held over the formation of a Cabinet, and losing patience at last, he told the politicians that he would nominate one himself; which he did, and it was accepted withal, introducing order and ending the crisis. It is quite apparent that France is so used to being governed by one-man authority that she can't get over the habit of expecting it.

As was expected, Colonel Thomas A. Scott has been elected President of the Pennsylvania Railroad. This was a foregone conclusion from the moment of Mr. Thompson's death. Although occupying a secondary position among the company's officers since 1859, Col. Scott has been practically the head of its affairs, so that the late election will in no important respect change the policy that has prevailed in the councils of the road. Mr. Scott has probably without exception the clearest and most comprehensive executive mind now employed on railroad matters on this continent.

There is certainly a strange form of insanity prevalent among our laboring population which impels them to enter into strikes for higher wages at the present time—which is the most unfavorable one possible for the success of such movements. Thousands of unskilled workmen are waiting for employment all over the country and step into the places of the malcontents as fast as they are vacated. We incline to think the trades-unions, however helpful to labor they may be in certain aspects of the case, are often the organized enemies of the men who compose them.

Venus (the planet, not the red-haired queen of love) is to make her semi-occasional transit on the 8th of December next. The scientific world is already highly excited about the coming event. All civilized nations,—among which we are egotistic enough to reckon ourselves—propose to send instruments and observers to the South Sea, from which the event will be most clearly visible. Our own expedition is nearly ready to get off. Its members have selected a barren rock in the ocean for their point of 'vantage and will, on their arrival, proceed to erect the necessary buildings for shelter and astronomical purposes. As several months must elapse before the planet will perform, the men of telescopes will have plenty of time to fish and swim. If Venus proves faithful to the predictions made for her guidance, no doubt a heap of desirable information will be added to the slender stock of what we know of the celestial arcana. That the government recognizes the importance of star-gazing is a hopeful sign for its morals and mentals, too.

The Sumner Sale.

Most of the private household effects of the late Senator Sumner were disposed of by auction the other day at his former home in Washington. The collection was various and valuable, Mr. Sumner having been a man of perfect taste in respect to the details as well as to the essentials of his life. Considered as the property of a man by no means wealthy, his works of art were noticeable for their variety and characteristic beauty. He had gathered them from all sources, without system or special forethought, taking what happened to suit his critical fancy when he met it, paying often any price within his means to obtain a treasure few others would have observed or coveted. The walls of his house became in the course of time completely covered with pictures and set with shelves holding statuettes or rare old bronzes. Visitors often spoke of the richness of the house and the culture and refinement of its occupant which an hour spent within it left upon them. Mr. Sumner was not solicitous about the mere matter of the usual regulation furniture needed in his own as in all homes, but invested time and thought in arranging his store of the rare and costly works of painter, sculptor and engraver. All this is gone. The owner, whose loving, brooding spirit drew his miscellaneous treasures into a unity of effect and feeling, being gone, why should not the empty shell collapse and follow? When the keystone of an arch is taken out, the falling, stone by stone, of all that composed the airy, graceful span is a natural result. There is something less ghastly in death itself than in the train of sequences which is dragged behind. The hard-handed farmer may lie still and cold beneath his roof and the event excite no comment, except such as is common to the one thing which happens to all; but when the old place, no longer cared for by his strength and industry, goes piece by piece under the hammer, then begins the real desolation. The man is gone and his works do follow him. Mr. Sumner's house, in which occurred during the eventful years of his residence in Washington a greater number of notable interviews and gatherings than in any other strictly private mansion, has vanished with the flame which was extinguished from the torch of his life. There is little to be said: it is the way of the world. The Senator's colored friends were more anxious than others, we see, to obtain *souvenirs* of their noble friend.

A New Era.

The brewers propose to try their hand at reforming the world. All sorts of millenial machinery having met with only limited success, they suggest that we see what virtue there is in beer to promote morality. So the men of malt assembled in Boston and passed resolutions to the above effect. The assemblage was called a Congress, to the employment of which grave and dignified word in their case no one can reasonably object. Many a Congress of other men than brewers has come and gone, leaving no better smell behind it than they will—perhaps, at times, not so good. The brewers hope "that a new era will be inaugurated in our entire social system." We must say we hope the brewers are prophetic in hoping so. There is no want more pressing, no need more imperative, than the want and need of a new era. Nothing, when realized, will be greeted with wider and more sincere popular approval. Poets have sighed for it and reformers of every breed and species have assured us that it would soon be ushered in. But methods vary, we perceive, among the best and sincerest people. The temperance folks expect to introduce the new era by overthowing all drinking customs and turning every drop of alcoholic and malt liquors into the cold and filthy gutter. Then they want to insure the continuance of the new era by prohibiting the manufacture and sale of the aforesaid beverages by the most radical and uncompromising legislation. Now, the brewers see the whole subject in a different light altogether. They want to stop the Simon-pure rumsellers from deluging the earth with the form of death and d—nation peculiar to them, but beer, they say, is decidedly another sort of thing, and just the tackle precisely with which to haul along the new era. The brewers take the extreme ground and don't hesitate to state it in words plain as the Institutes of Calvin, that "men cannot be angels while in the flesh." If that proposition had come from some authority a trifle nearer orthodoxy than a Congress of Brewers, we should take great comfort in believing it. It is a discouraging thing to be expected to be an angel when one observes the terrible failures to square up to that high standard of character which lie all around us. And if we could be dead certain that the brewers know that angelhood is not demanded of us "while in the flesh," we should feel less nervous than we sometimes do under the opposite theory. And the deduction that the brewers draw from the anti-angelic premise must be allowed to be business-like and to the point: if we can't be angels and ought not to fool away time trying to be angels, then let us drink beer. The "fanatical dreamers" and "would-be moral reformers" will dispute this conclusion, we suppose, and the brewers look for them to do it. Well, we shall be glad to hail the new era when it arrives, and if whiskey could give place to beer it is not impossible that it would soon come hopping along. Anyway, there is a pleasant novelty in ale as an advocate of sobriety.

CURRENT TOPICS.

—The pastors of the English Church are learning to preach without notes. But gold is legal tender over there.

—The idea of preserving Mackinaw Island as a national park, is a good one. We cannot have too many parks.

—Congress draws near an adjournment and the truly loyal papers are preparing their laudations of its good deeds. Well, some people are satisfied with very little.

—The Albany Journal don't like the idea of erecting a monument to Fisk, Jr., and sending his "pernicious example" down to posterity thus glorified.

—"The Innocents Abroad" and "The Rural Roosters" are among the names with which the excursing editors are greeted down south.

—Rochefort expects to see a republic established in France, but not before another bloody fight. He expects to make another rush for liberty.

—The elder Fisk is traveling as agent for a Boston house, which he says he does, not to earn a living, but to keep his mind from pondering on his troubles.

—What a nice thing it is to own a lot of gay young Princes. Wales is $300,000 in debt and Parliament is to be asked to relieve him. Yet there are debtors' prisons in England.

—Setting a thief to catch a thief has actually been practiced in New York, where a police officer has just been identified as the man who stole a lot of diamonds from a Brooklyn jeweler.

—The Czar don't seem to be of much consequence after all, for Queen Victoria snubbed him by going off to Scotland before he left for home. She is piqued because he insists that Alexandrowna shall rank next to the Princess of Wales at court.

—Sawyer don't scare worth a cent. He says neither the Ways and Means Committee nor the combined pens of the country can drive him out of office. A modern Ajax—or jackass, which? Somebody'll have to nitroglycerine him.

—Strikers seem, as a general thing, to possess no common sense. Just now business is very dull and there are scores of men ready to take every vacant position, yet the laborers, bricklayers and stage drivers have inaugurated strikes, all of which have failed, as it was a foregone conclusion that they would.

—It isn't a very comfortable thing to be a Czar. Three thousand policemen, all the detective force in London and 4,000 soldiers guarded Alexander of Russia, during his visit to London, to prevent his being shot. We'd rather be plain Aleck and feel safer.

—We are to have the old scientific fight between Admiral Wilkes and Sir James Ross, of the British navy, renewed about the Antarctic Continent that Wilkes claims to have discovered and which Ross says isn't where Wilkes located it. Wilkes ought to have tied it fast so it could be found when needed.

—The English husband of the lower class is very often a great brute and beats his wife most shamefully. A bill is proposed in the British Parliament making the offence punishable by flogging. There is equal and exact justice in this, and the hubby who gets a sound thrashing himself for beating his wife won't feel much like doing it again.

MISCELLANEOUS ITEMS.

—The imported horses used in Barnum's Roman Hippodrome in New York city, for flat and hurdle racing, are in many cases pure thoroughbreds, and of distinguished pedigree.

—The canal boat Richard, loaded with coal, ran against the railroad bridge at Troy on Tuesday afternoon, which caused her to sink.

—Potato bugs have made their appearance at Auburn. Major Carpenter, agent of the prison, lately exhibited a number of the destructives discovered on his farm. They have the ten stripes and other characteristics of the Colorado pest, and are to be dreaded as much as the western species.

—A music box fixed in a tree in the cemetery at Waterloo, Seneca county, discoursing divine music, set to playing by means of strings extending to a neighboring barn, has been exciting the frenzied curiosity of Waterloo lately. Until the waggish trick was discovered the citizens enjoyed the lugubrious sensation of a haunted graveyard.

—The Springfield Republican says: "The black flies collected on the track of the railroad between McAdam and Canterbury, Me., in such numbers, the other day, that they stopped a train of cars, acting like grease, and sand had to be applied before the cars could go on.

—Several thousand young Parisian girls, members of the Society of Enfants de Mary, went on a pilgrimage to the Cathedral of Notre Dame, recently. The line of carriages conveying them stretched over a mile. Each pilgrim was robed in white and held a torch in her hand; the cortege represented every rank of society from the grand dame to the poorest of the poor.

—A match in bread making took place last Wednesday in the Female Seminary of Hartford, under the direction of Miss Catharine Beecher. Four married women and the professor of chemistry were the judges. They tested the bread with butter, without butter, and finally with milk. Miss Mary Fitzgerald got the first prize of $5 for wheaten bread, and Miss Lily Fitzgerald the second prize of $3, and three prizes of $2 each were taken by three other girls whose names are not given. For brown bread Miss Ann Fitzgerald got the first prize and Miss Talcott the second.

The Left Centre are dissatisfied with the programme as not conceding enough to them.

THE NATIONAL CAPITAL.

Disgusted with Civil Service Reform.

WASHINGTON, June 4.—In the House the committee on reform in the civil service have adopted a resolution that they do not recommend any further appropriation to carry on or experiment in so-called civil service reform in the manner in which it has been carried on. The vote was—yeas, Butler of Massachusetts, Luttrell of California, Sheats of Alabama, and Whitehouse of New York, 4; nays, Kellogg and Willard of Michigan and Willard of Vermont, 3; present but not voting, 1. Butler explains that he did not submit as a result of the deliberations of the Judiciary Committee the report recommending that the fine imposed on Susan B. A member of the conference committee on the finance bill said to-day that indications continue favorable to an agreement of views.

GALVESTON, Texas, June 4.—A special dispatch to the News from Brownsville on the 4th says Lieut. Smith and special police officer Eakin left there May 8th with an escort of Mexican cavalry to overtake and arrest Hamilton the defaulting Treasurer of Jersey City. They went to San Luis Potosi, following Hamilton's trail, which they struck at San Fernando. At San Luis they were only twelve hours behind Hamilton, but were informed by the District Judge that if they attempted to arrest Hamilton without approval of the warrant by the government of the state they would be arrested themselves. This warrant he stated must explain Hamilton's crime, and Gov. Canales of Tamaulipas should make requisition on other Governors. The Judge intimated that upon the payment of certain sums he would have Hamilton arrested. This they could not do, and returned without the prisoner.

METROPOLITAN NEWS.

Oswego Midland Railroad.

NEW YORK, June 4.—At a meeting yesterday of the second mortgage bondholders of the Oswego Midland Railroad. Abram S. Hewitt, Trustee, said the road was now earning enough to pay current expenses. He said that the first mortgage bondholders were about to foreclose, and he didn't think they could be prevented. Representatives of the first mortgage bonds said it was their intention to give all interests a fair representation in the reorganization, provided there was a practical disposition to assist in placing the road on a sound basis. Report of the Committee on Union with the Presbyterians.

The majority and minority reports of the committee appointed at the last session of the Synod to confer with the Presbyterian Assembly regarding union with that church were read to-night. The majority favor further consideration of the matter, while the minority hope that the question will rest and the union come about, if at all, as the result of the deliberate, well-informed and general choice of the members of the church. Discussion of reports was made a special order for Tuesday morning next, after roll call.

THE STATE CAPITAL.

The Temperance People.

ALBANY, June 4.—The Executive Committee of the New York State Temperance Society held a meeting in this city this afternoon. THE OREGON ELECTION.

THE ANTI-SECRET SOCIETY CONVENTION.

Those Dangerous Masons.

SYRACUSE, June 4.—In the Anti-Secret Society Convention the Committee on Resolutions reported a long series of resolutions, mainly an indictment of Free Masonry, refaced by the following preamble:

WHEREAS, In the continued existence of secret, oath-bound fraternities we recognize a conspiracy against all who do not belong to them and a standing menace to the religion of Jesus Christ, as well as to republican institutions, which draw their life from it, and

WHEREAS, An organized resistance to Free Masonry and its kindred classes is imperatively demanded of all who love our blood-bought institutions.

After a discussion the resolutions were unanimously adopted. A plan was adopted to extend the membership to 100,000 the present year. Members' fees were fixed at twenty-five cents a year and life memberships ten dollars. A letter to the President was adopted, to be signed by the officers, protesting against the proposed Masonic dedication of the Chicago public buildings. A constitution and by-laws embodying matters indicated were reported and adopted.

Formation of a New Political Party.

SYRACUSE, June 4.—The afternoon session of the Anti-Secret Society Convention was turned into a political meeting. About 200 delegates were present, and Donald Kirkpatrick of Syracuse presided. President Blanchard of Wheaton College submitted a preamble and resolutions for the formation of a national political party opposed to secret societies. After long debate and some amendments the report was adopted. The name of the party is to be "The American," and a platform of principles is to be framed by a committee of one from each state. A national convention is to be called to nominate presidential candidates. Debate was very warm on a proposition to embody the name of God in the Constitution as a plank in the platform, which was finally adopted. The evening session was devoted to the reading of reports of Committees on Finance, on Nomination of Officers, on Enrollment and on Adoption of Constitution and By-laws. Pittsburgh, Pa., was selected as the place of holding the next annual convention. Addresses were delivered by Rev. J. R. Baird of Pennsylvania and Mrs. Dr. Miller of New York. The convention then adjourded *sine die.*

—The rumor that the Harmony Mills at Cohoes were about to close is revived. The New York Bulletin says the prices of prints are declining, and that "it is stated on apparently good authority that no reduction will be made in the price of Garner's prints, and that the mills will be closed rather than submit to further concessions." The cloth for the Garner prints are made by the Harmony Mills, of which Garner is the chief stockholder.

UNITED STATES CONGRESS.

SENATE.

WASHINGTON, June 4.

Mr. SCOTT, from the Committee on Finance, reported unfavorably upon the resolution submitted by Davis and the amendment thereto of Pratt calling upon the Secretary of the Treasury for a statement of the balance due from the disbursing officers of the United States, names of delinquents and what steps have been taken to recover amounts due, and asked that the committee be discharged from further consideration of the subject. So ordered. Mr. Scott said the committee reported unfavorably on the resolution on account of having received information from the Secretary of the Treasury that it would require from three to six months to collect and prepare the information called for, and involve an expense of $75,000.

The bill relieving Fitzhugh Lee of Virginia from political disabilities passed.

The morning hour expired and the Senate resumed consideration of Windom's transportation bill.

Mr. HAMILTON of Maryland opposed the resolution, and said there was a great movement in the west known as the Granger movement, and this resolution was for the purpose of capturing it. As a Democrat he could not recognize the right of Congress to commit the government to the establishment of such a system of improvements. He did not care for the party, but looked to the interest of the whole country in the matter, and would vote against the resolution.

The Chair laid before the Senate the resolution of the House disagreeing to the amendments of the Senate to the bill amending the charter of the Freedmen's Savings and Trust Company.

Mr. SHERMAN moved the Senate insist upon its amendments, and grant a conference. Agreed to, and the Chair appointed Sherman, Scott and Bayard as members of the conference on the part of the Senate.

At five o'clock the Senate adjourned.

HOUSE.

Mr. HOOPER of Massachusetts, from the Committe on Commerce, reported a bill for the establishment of life-saving stations and houses of refuge on the sea and lake coast, and to promote the efficiency of the life-saving service. Passed.

Mr. STANARD of Missouri, from the same committee, reported a bill deepening the channel at the mouth of the Mississippi River by dredging or otherwise. Passed without discussion. The bill proposes to have the work done by contract.

The Senate amendments to the bill in regard to savings banks and the Military Academy appropriation bill were concurred in.

The House then resumed consideration of the bill, which was up yesterday, for the improvement of the mouth of the Mississippi River, authorizing the work to be done by James Brads. Debate was continued by Sypher of Louisiana, Hawley of Illinois and Sheldon of Louisiana against the bill and Lewis of Tennessee and Stanard of Missouri in support of it.

After further debate the bill went over until to-morrow.

The House at 4:30 took a recess until 7:30, the evening session to be for debate only, on the condition of the Washington monument.

EVENING SESSION.

In the House evening session Chipman, Delegate from the District of Columbia, made a speech advocating the appropriation of $300,000 for the completion of the Washington monument. Speeches were also made by Storm and Ward of Illinois and Ward of New Jersy and Cox of New York.

Briggs.

Consumption is a disease so common that a description is scarcely necessary, yet the causes are varied. Consumption is not contagious nor hereditary, but the general constitutions may follow one generation after another, and be from their physical organization more easily affected by this disease; but the chief are in neglecting the laws of nature, too much confinement in an unhealthy atmosphere, sudden colds, catarrh, great and continued exposures, impoverishing of the system by other diseases; in fact there are almost as many cases as there are victims; and one of the most fatal is that of young ladies who expose their health and endanger their lives in the most reckless manner when attending balls, parties, operas and other places of amusement, which result in Consumption and an early grave. It chiefly attacks the young, the fair and the amiable, and is considered incurable. In certain northern latitudes it prevails with the greatest violence, owing, probably, to the frequent atmospherical changes from heat to cold, dryness to dampness, &c. The general symptoms of this disease are an habitual cough, morbid expectoration, pains in the breast, casual flush or feverish heat in the hands, feet and shanks, change of voice, thin fingers and nose, bent or crooked nails, falling of the hair, &c. This disease has been divided into three, four, and even five stages by medical writers; but, for practical purposes, three stages will be found best adapted to the course of the disease. To entirely cure this cough and eradicate all the early symptoms of this fatal malady, DR. J. BRIGGS' THROAT AND LUNG HEALER is thouroughly adequate and sure.

IN THE FIRST OR INCIPIENT STAGE OF CONSUMPTION, there will be found some difficulty in breathing, perhaps amounting to a shortness of breath, more especially in exercising. Cough is a very early symptom; it may be slight and hacking at first, but gradually becomes more and more distressing and frequent; at first it is dry, but is soon attended with an expectoration of a thin or frothy character, or resembling mucus. Very frequently the expectoration will be streaked with blood, and sometimes the first observable symptom of CONSUMPTION will be more or less profuse bleedings from the lungs. Until recently, that terrible disease, CONSUMPTION, has been considered an affliction beyond the reach of medicine or the healing art. But a new era in the management of Palmonary Disease seems to be dawning upon the scientific medical world; and since many distinguished physicians have acknowledged that Consumption can be cured, few there are who attempt to controvert their opinion. To those singled out as victims to that fatal malady we offer a remedy, sure in its results to bring back health to their poor weakened frames and joy to the hearts of their friends, Try DR. J. BRIGGS' THROAT AND LUNG HEALER.

LOCAL INTELLIGENCE.

CITY NOTES.

—"Don't let that worry you" is the latest slang.

—Jim Davis thinks two and a half tons of paper at one load a pretty good pull.

—The Wurts street Baptist Church is receiving a thorough renovating inside.

—Very beautiful and fragrant are the blossoms on the horse-chestnut trees now.

—On Thursday 57 canal boats laden with 7,268 tons of coal reached tide water through the Delaware & Hudson Canal.

—Charcoal venders are getting almost as numerous as a good many peas on a large plate.

—Gutters and leaders are being placed on the new Presbyterian Church, corner of Abeel and Wurts street.

—An enterprising merchant on Abeel street displays a sign setting forth that he sells "14 eggs for 25 cts."

—The Special Term of the Supreme Court to be held by Judge Boardman will commence on the fourth Monday of June, for equity causes only.

—Many women from this city now find work among the farmers in the vicinity. Some kinds of farm work they perform as well as men.

—The uptown lawyers are the most enthusiastic fishermen in the county. Some of them are out among the trout streams all the while.

—The front of St. Peter's Catholic Church on Wurts street was adorned with greens on Thursday, in honor of the feast of Corpus Christi.

—The six new cars for the horse railroad are expected to arrive and be placed on the rails this week—a consummation most devoutly to be wished.

—There was but one sailing vessel lading coal at the island dock on Thursday—but heaps of barges and canal boats loading and discharging.

—The funeral of the late Richardson Purvis will take place this, Friday, morning at 10 o'clock in the Church of the Holy Spirit, and and not from his late residence.

—The feast of Corpus Christi was observed in St. Mary's, St. Joseph's and St. Peter's Catholic Churches in this city on Thursday, by appropriate religious ceremonies.

—We saw a weeping woman with a very sick baby on her lap, seated on the stairs leading to a doctor's rooms on Thursday afternoon, and anxiously awaiting the doctor's arrival.

—A great many handbills are destroyed in this city about as soon as they are posted.—The Governor has signed the bill imposing a fine of $50 and imprisonment for such offence. Hoodlums had better be more careful in future.

—George Dumond, uptown, has been investing in a 200-horse power diamond, and now whenever he goes into the streets he has to cover it with one of Frank Nestell's lampshades to prevent it from blinding beholders.

Personal.

Mr. George Dressel, brewer, of this city, is now in Boston in attendance on the Congress of the United States Brewers' Association, which is holding its sessions in Horticultural Hall in that city.

Sociable.

The Sociable connected with the Clinton avenue Presbyterian Church will be entertained by Mrs. Wm. B. Mickens, on Friday evening, June 5th, at which time she will gladly welcome all her friends.

The Mary Powell's Trip Tickets.

The trip tickets sold on board the Mary Powell at $2 for the round trip from this city to New York and return, are good for the return trip only when used on the day purchased. This statement is made at the request of Captain Anderson to correct a misunderstanding as to these special rates.

Overlook Mountain House Telegraph Line.

Mr. John E. Lasher, the host of the Overlook Mountain House, has completed a telegraph line from that summer resort to this city, and it is now in working order. The line passes through Woodstock, where an office has been established, and one office in this city is in the N. Y., K. & S. Railroad building, and another at the office of the Western Union Telegraph, in the Mansion House.

Frog Hunters.

O. Hermance, Samuel Webster and R. W. Decatur went to the Binnewaters frogging on Wednesday, and when they drove off with a large wagon filled with themselves and a heavy stock of guns, powder and shot, the general impression was that they had gone to quell a riot somewhere; but they returned very peaceably in the evening, bringing with them forty fine frog saddles, the result of their trip and made an epicurean feast for themselves and friends. None of them had to fire more than ten times to hit a frog.

The Colored Troops Fight—But not Nobly.

On Foxhall avenue, near the intersection of Hasbrouck avenue, stands a three-story tenement house which is inhabited by negroes of a very bad class. On Thursday evening, between seven and eight o'clock, a number of the male negroes who inhabit this house, becoming saturated with fusile oil, benzine, or some other horrible compound under the name of whiskey, indulged in a row at which about all the men, women and children residents in that part of the city were spectators. One spindle-shanked negro who was wild with rum was inviting "any son of a——to come out in the road and lick him," but there being no such breed of dogs about, that "man and brother" didn't get what would have done him "a power of good." Soon after this phase of the performance a one-armed man of color, who is seen almost every day about The Strand, became involved in a row with Gil. Smith's hostler, Harry, we believe his name is, and struck him over the right eye with, our reporter, who passed soon after the blow was inflicted, was informed, a mallet, and a fearful gash made, from which the blood flowed in a steady stream, while the people stood idly by and offered no assistance to the wounded man. The negroes crowded the windows, doors and porches of the tenement house and while the men were loudly proclaiming how many sons of——they could lick in two minutes the females were shrilly telling them to "hold yer jaw an go in de house, 'fore you gits yer head busted open." It is said that house is the scene of frequent and disgraceful rows, which disturb and scandalize the whole neighborhood, but such doings should not be permitted to continue, for it is an easy matter, by law, to break up that colony of colored folks if they are disorderly.

Round Lake Camp Meeting.

The sale of lots at Round Lake, yesterday, was very largely attended, and about $8,000 was realized. Mr. Simmons of Albany was auctioneer, and disposed of the lots, the terms being twenty-five per cent. cash down or within thirty days, the balance, half in six months, the other half in twelve months, with interest. The leases to be delivered when the whole amount is paid. The lots were started at $100 each, unless differently specified.

The first camp meeting at this place was held in 1868. Nearly $100,000 have been expended in purchasing and improving the grounds, not including the elegant depot erected by the Delaware & Hudson Canal Company, at an expense of $10,000. At the annual meeting of the association last March, there was a balance of indebtedness of $18,465.10, which is to be provided for by the sale of lots. Deducting from this the receipts of yesterday, and the debt remains about $10,000. There are one hundred and fifty lots left to sell, and a proposition has been made to the Board of Trustees by a responsible person to be one of a company of ten to purchase the remaining lots for $15,000, and sink a mineral well. The proposition will undoubtedly be favorably considered. The appearance of the grounds this season will be much improved. A number of cottages are already occupied, and all will be filled before the first of July. President Hillman proposes to continue the improvements that he has inaugurated, until Round Lake is the best camp-meeting ground in the world.—*Troy Times.*

Coutant, Wm. H. Fredenbergh, John R. Freer, James Van Leuven, Robert Loughran, F. W. Ingalls, Lucius Lawson, Benjamin Turner, Luke Noone, James Meyer, Jr., C. H. Clearwater, A. T. Newton.

The Result of a Race on the River.

Wednesday afternoon the canal boat Richard, Wm. Utter Captain, owned at Port Covington in Canada, came up the river in the Rondout tow. She had aboard about thirty-five tons of coal, bound for Plattsburgh. The propeller Noyes, with the boat in charge, attempted to pass three boats under the bridge. The space was too narrow, and the Richard's bow struck a pier of the bridge. The propeller succeeded in towing the damaged boat to Starbuck's Island, where she sank in about six feet of water. The Captain commenced removing the cargo with the view of raising her. The estimated loss from damage and delay is about $300. We are informed that a tow of boats came from Rondout, and that the Noyes and the Ide each took some of the craft in charge to convey them to the dam, and that while racing up the river to reach the lock at the dam first the accident occurred.—*Troy Times.*

A Stupendous Hotel.

The proportions of the United States Hote at Saratoga are of a stupendous character. It is 1,400 feet in length, or more than a quarter of a mile long, covering 95,000 feet of earth, with sleeping accommodations for 1,200 guests, with 1,850 windows, 2,500 doors, miles of gas and water pipes, and constructed of upwards of 4,000,000 bricks. The entire cost is $900,000, of which the furniture cost $225,000; 30,000 yards of carpet are required to cover the floor. Steam pipes run through the building for use on a cold and unpleasant day. There are in it 768 lodging rooms, 500 of which are plumbed in the most substantial and modern style with stationary wash basins, etc. There are 65 suits of rooms, containing from one to seven lodging rooms with parlors, bath and water closets attached to each. The building occupies a plot of ground of seven acres in extent, in the form of an irregular pentagon.

New Baptist Church.

The new Baptist Church at Sing Sing, which was dedicated yesterday, is an imposing structure in the Gothic style of architecture, with a tower 180 feet high. The length of the building is 120 feet, with an audience room 80 feet long and 54 feet wide. The front window forms quite a feature of the building, being 32 feet in height and 12 in width. The church is lighted by ten windows of stained glass; eight of them are memorial windows given by D. D. Mangam, D. S. Mott, P. A. Anser, Elijah Hunter, W. A. Pentz, I. B. Moxon and John K. Clapp.

The new edifice cost $55,000, and the Society had besides this a debt of $35,000. The Rev. J. B. Wakeley, known as the begging divine of the Methodist Church, made one of his well known appeals during the afternoon, when the sum of $10,000 was raised on the spot. In the evening it was expected another call would be made.—*Po'keepsie Eagle.*

Mrs. Susannah Evans on Temperance.

This talented Welsh lady has been secured to speak on Temperance in Music Hall on Sunday afternoon at 3½ o'clock. Gen. Smith authorizes us also to announce that she will speak in the Rondout M. E. Church on Sunday evening at 7:45.

Mrs. Evans is so well known it is really unnecessary for us to speak of her qualifications, but she is an exceedingly pleasant speaker, possessed of a charming delivery, and thoroughly in earnest. The Herald, Brooklyn Union, World, Evening Post, Evangelist and other papers, speak of her in the highest terms.

Dio Lewis says of her: "I would not do the Temperance cause a greater service than by introducing Susannah Evans. Her lectures are full of deep, earnest thought, beautifully expressed and delivered in a chaste, ladylike manner."

Marvin, Saratoga Springs. Inspectors, Sidney T. Fairchild, Cazenovia; Lansing Prayn, Albany; Henry Roseboom, Roseboom—*Albany Times.*

A Silver Wedding.

We learn from the Hudson County, N. J., Times of May 29th that the Rev. Dr. Stitt and wife were treated to a most agreeable surprise by the members of the Doctor's congregation on Saturday evening, May 23d, the twenty-fifth anniversary of their marriage, at the parsonage of the First Reformed Church of Bayonne, N. J. It appears that it had been the wish for a long time past of Dr. and Mrs. Stitt to celebrate the twenty-fifth anniversary of their wedded life, but having so recently moved among those who were comparatively strangers to them they had thought best to let the day pass without observance. Their congregation, learning this, determined that the day should be recognized. So on the afternoon of the 23d of May, while the reverend gentleman and his lady were supping with a neighbor, totally unconscious of what was going on in his own house, his parlors were rapidly filling with self-invited guests. About nine o'clock the Doctor and his wife arrived, walked into the hall, and as they opened the door leading into their darkened parlor the gas was turned up, disclosing to them a large concourse of their friends. Never was a surprise more complete. From the piano came the silvery notes of Mendelssohn's "Wedding March," which was almost completely drowned by applause. Before they could recover from their first surprise the Rev. Mr. Jones of Bergen Point stepped up to them, and after pleasantly speaking of the happy event which had occurred twenty-five years before, in behalf of their congregation presented them with a large and superbly wrought silver fruit-dish and fruit-spoon. The dish contained a number of bright and new silver dollars, and bore the following inscription: "To C. H. and M. A. Stitt, May 23d, 1849–74," on one side, and on the other, "From the First Reformed Church, Bayonne City, New Jersey." The gift was a magnificent one and in every respect worthy of its donors.

For a time Dr. Stitt was so overcome with feelings of gratitude that his tongue clove to the roof of his mouth.—But at length, in a very happy manner he thanked them all heartily for this new testimonial of their love and esteem for himself and wife. Surprise closely followed surprise. Before the happy couple had finished receiving the congratulations and good wishes which were showered upon them from all sides, they were lead into the dining-room, where they found a table which fairly groaned under the weight of a beautifully frosted bridal cake, ice cake and confectionery. The surprisers, after duly discussing the quality of the entertainment, and saying good night, at an early hour returned to their homes, feeling happy that they had had an opportunity for showing to their beloved pastor the esteem in which he and his family were held by them.

Saugerties Items.

Edson Finger is putting in quite a showy front to his feed store.

Colonel Pippins goes west next week. How sorry all the boys are to part with their friend, who renders the following stanza so beatifully;

> "The corn is waving, Annie dear,
> Oh meet me by the stile,
> To hear thy gentle voice again;
> Hiram, give us a s-m-i-l-e!"

The bridge crossing the Esopus Creek is in a very precarious condition. If we are not much mistaken it will yet be a bridge of sighs to this place. In a light wind it sways from side to side like a drunken man. We understand that the Hon. Wm. R Russell is agitating the question of an iron bridge with our capitalists, but this is too good to be true. Saugerties never does anything until actually forced into it.

The Butzel boys have a young alligator. It was brought from Florida by Frank Pidgeon, Sr., of this place.

The following notice appears in the Utilitarian: A meeting of those interested in the Rondout & Oswego Railroad will be held at the Ackerly House, in Margaretville, on Thursday, June 11th, at 2 P. M., for the purpose of inquiring as to the causes which have led to its embarrassed condition; consulting as to whether any means can be devised to save the town from the total loss of their stock; and the consideration of such other topics as are pertinent to the subject.

A Freak of Nature.

Near the foot of the hill just to the north of the Marbletown post-office can be seen a chestnut tree of immense girth of trunk, that has growing from its trunk, about six feet from the ground, an elm about six inches in diameter, and there are no other elm trees within a considerable distance of the chestnut.

—A young man named Hook, who had been assisted while in need, by the members of Eastman's College Band in Poughkeepsie, decamped on Monday with a band coat worth forty dollars and a cornet valued at thirty-five dollars, the property of Samuel Gunn, who says the thief's name should have been Hooker and he is going Gunning for him.

—On Tuesday last a farmer in Austerlitz, by the name of Sprague, undertook by sharp words to compel his indentured servant to work a little faster than he was inclined, supplementing his orders by a moderate blow with a fork with which he was at work. The party thus assailed, being provoked, turned upon Sprague and knocked him down, when a third party interfering, Sprague recovered from his downfall and seizing the fork again, plunged it into the body of his servant, inflicting severe if not fatal injuries.—*Hudson Star.*

OUR FREE PARLIAMENT.

CITY OF KINGSTON, June 4, 1874.

EDITOR FREEMAN:—In your issue of the 2d instant I noticed a card over the name of George F. Kiersted with reference to the celebration of Decoration Day in this city. The writer shows such a lamentable amount of ignorance, as well as betrays such despicable meanness, that for the benefit of your many readers, who may not all be cognizant of the facts, I ask a small space in your paper for an explanation.

In the first place, then, I personally know that there was a carriage and an abundance of flowers set apart for the colored people. Col. Westbrook called on several colored men in the city urging them to take part in the exercises, offering them a place in the procession and soliciting them if they knew of any graves of colored soldiers not yet discovered, to send names and localities to the committee, and if any colored boy in blue was left out it was the fault of such men as George F. Kiersted, who kept in the background on Decoration Day and sought some days after to convey a wrong impression to the public mind, and excite animosities which should long ago have been buried beyond the possibility of a resurrection. Perhaps if he had exerted himself a little more last Saturday he would have less occasion to slander those who tried to do their duty on that solemn day.

I, for one, would tender, on behalf of the colored people of the City of Kingston, to Col. Westbrook and his noble assistants our deep-felt thanks for all their labors on Decoration Day, and repel the insinuation of the writer in your paper above mentioned that any dead soldier's graves not covered with flowers, simply because he carried a black instead of a white skin.

LOCAL INTELLIGENCE.

CITY NOTES.

—"Don't let that worry you" is the latest slang.

—Jim Davis thinks two and a half tons of paper at one load a pretty good pull.

—The Wurts street Baptist Church is receiving a thorough renovating inside.

—Very beautiful and fragrant are the blossoms on the horse-chestnut trees now.

—On Thursday 57 canal boats laden with 7,268 tons of coal reached tide water through the Delaware & Hudson Canal.

—Charcoal venders are getting almost as numerous as a good many peas on a large plate.

—Gutters and leaders are being placed on the new Presbyterian Church, corner of Abeel and Wurts street.

—An enterprising merchant on Abeel street displays a sign setting forth that he sells "14 eggs for 25 cts."

—The Special Term of the Supreme Court to be held by Judge Boardman will commence on the fourth Monday of June, for equity causes only.

—Many women from this city now find work among the farmers in the vicinity. Some kinds of farm work they perform as well as men.

—The uptown lawyers are the most enthusiastic fishermen in the county. Some of them are out among the trout streams all the while.

—The front of St. Peter's Catholic Church on Wurts street was adorned with greens on Thursday, in honor of the feast of Corpus Christi.

—The six new cars for the horse railroad are expected to arrive and be placed on the rails this week—a consummation most devoutly to be wished.

—There was but one sailing vessel lading coal at the island dock on Thursday—but heaps of barges and canal boats loading and discharging.

—The funeral of the late Richardson Parvis will take place this, Friday, morning at 10 o'clock in the Church of the Holy Spirit, and and not from his late residence.

—The feast of Corpus Christi was observed in St. Mary's, St. Joseph's and St. Peter's Catholic Churches in this city on Thursday, by appropriate religious ceremonies.

—We saw a weeping woman with a very sick baby on her lap, seated on the stairs leading to a doctor's rooms on Thursday afternoon, and anxiously awaiting the doctor's arrival.

—A great many handbills are destroyed in this city about as soon as they are posted.—The Governor has signed the bill imposing a fine of $50 and imprisonment for such offence. Hoodlums had better be more careful in future.

—George Dumond, uptown, has been investing in a 200-horse power diamond, and now whenever he goes into the streets he has to cover it with one of Frank Nestell's lampshades to prevent it from blinding beholders.

Personal.

Mr. George Dressel, brewer, of this city, is now in Boston in attendance on the Congress of the United States Brewers' Association, which is holding its sessions in Horticultural Hall in that city.

Sociable.

The Sociable connected with the Clinton avenue Presbyterian Church will be entertained by Mrs. Wm. B. Mickens, on Friday evening, June 5th, at which time she will gladly welcome all her friends.

The Mary Powell's Trip Tickets.

The trip tickets sold on board the Mary Powell at $2 for the round trip from this city to New York and return, are good for the return trip only when used on the day purchased. This statement is made at the request of Captain Anderson to correct a misunderstanding as to these special rates.

Overlook Mountain House Telegraph Line.

Mr. John E. Lasher, the host of the Overlook Mountain House, has completed a telegraph line from that summer resort to this city, and it is now in working order. The line passes through Woodstock, where an office has been established, and one office in this city is in the N. Y., K. & S. Railroad building, and another at the office of the Western Union Telegraph, in the Mansion House.

Frog Hunters.

O. Hermance, Samuel Webster and R. W. Decatur went to the Binnewaters frogging on Wednesday, and when they drove off with a large wagon filled with themselves and a heavy stock of guns, powder and shot, the general impression was that they had gone to quell a riot somewhere; but they returned very peaceably in the evening, bringing with them forty fine frog saddles, the result of their trip and made an epicurean feast for themselves and friends. None of them had to fire more than ten times to hit a frog.

The Colored Troops Fight—But not Nobly.

On Foxhall avenue, near the intersection of Hasbrouck avenue, stands a three-story tenement house which is inhabited by negroes of a very bad class. On Thursday evening, between seven and eight o'clock, a number of the male negroes who inhabit this house, becoming saturated with fusile oil, benzine, or some other horrible compound under the name of whiskey, indulged in a row at which about all the men, women and children residents in that part of the city were spectators. One spindle-shanked negro who was wild with rum was inviting "any son of a—— to come out in the road and lick him," but there being no such breed of dogs about, that "man and brother" didn't get what would have done him "a power of good." Soon after this phase of the performance a one-armed man of color, who is seen almost every day about The Strand, became involved in a row with Gil. Smith's hostler, Harry, we believe his name is, and struck him over the right eye with, our reporter, who passed soon after the blow was inflicted, was informed, a mallet, and a fearful gash made, from which the blood flowed in a steady stream, while the people stood idly by and offered no assistance to the wounded man. The negroes crowded the windows, doors and porches of the tenement house and while the men were loudly proclaiming how many sons of—— they could lick in two minutes the females were shrilly telling them to "hold yer jaw an go in de house, 'fore you gits yer head busted open." It is said that house is the scene of frequent and disgraceful rows, which disturb and scandalize the whole neighborhood, but such doings should not be permitted to continue, for it is an easy matter, by law, to break up that colony of colored folks if they are disorderly.

Round Lake Camp Meeting.

The sale of lots at Round Lake, yesterday, was very largely attended, and about $8,000 was realized. Mr. Simmons of Albany was auctioneer, and disposed of the lots, the terms being twenty-five per cent. cash down or within thirty days, the balance, half in six months, the other half in twelve months, with interest. The leases to be delivered when the whole amount is paid. The lots were started at $100 each, unless differently specified.

The first camp meeting at this place was held in 1868. Nearly $100,000 have been expended in purchasing and improving the grounds, not including the elegant depot erected by the Delaware & Hudson Canal Company, at an expense of $10,000. At the annual meeting of the association last March, there was a balance of indebtedness of $18,465.10, which is to be provided for by the sale of lots. Deducting from this the receipts of yesterday, and the debt remains about $10,000. There are one hundred and fifty lots left to sell, and a proposition has been made to the Board of Trustees by a responsible person to be one of a company of ten to purchase the remaining lots for $15,000, and sink a mineral well. The proposition will undoubtedly be favorably considered. The appearance of the grounds this season will be much improved. A number of cottages are already occupied, and all will be filled before the first of July. President Hillman proposes to continue the improvements that he has inaugurated, until Round Lake is the best camp-meeting ground in the world.—*Troy Times.*

Savings Bank Organization.

At a meeting of the Trustees of the Kingston Savings Bank, held at the Court House June 4th, 1874, there were present Henry C. Connelly, Wm. H. Romeyn, Jacob Freileweh, I. Bernstein, George S. Coutant, Wm. H. Fredenbergh, John R. Freer, James Van Leuven, Robert Loughran, F. W. Ingalls, Lucius Lawson, Benjamin Turner, Luke Noone, James Meyer, Jr., C. H. Clearwater, A. T. Newton.

For the purpose of organizing, C. H. Clearwater was appointed Chairman and Benjamin Turner Secretary.

Henry C. Connelly was elected President, A. T. Newton First Vice President, F. W. Ingalls Second Vice President.

A. Schoonmaker, Jr., was appointed attorney for the bank.

On motion a committee of three was appointed to consider applications for the office of Treasurer and proposals as to salary; also, the location of a banking room, and to report at the next meeting of the Board of Trustees. The Chairman appointed as such committee Wm. H. Romeyn, Luke Noone, Isaac Bernstein.

On motion the following committee were appointed to draft by-laws, rules and regulations: A. Schoonmaker, Jr., Wm. H. Fredenburgh, Robert Loughran, Henry C. Connelly, Jacob Freileweh.

The Board then adjourned to meet June 11th, at the same place, at 2:30 P. M.

B. TURNER, Secretary.

The Result of a Race on the River.

Wednesday afternoon the canal boat Richard, Wm. Utter Captain, owned at Port Covington in Canada, came up the river in the Rondout tow. She had aboard about thirty-five tons of coal, bound for Plattsburgh. The propeller Noyes, with the boat in charge, attempted to pass three boats under the bridge. The space was too narrow, and the Richard's bow struck a pier of the bridge. The propeller succeeded in towing the damaged boat to Starbuck's Island, where she sank in about six feet of water. The Captain commenced removing the cargo with the view of raising her. The estimated loss from damage and delay is about $300. We are informed that a tow of boats came from Rondout, and that the Noyes and the Ide each took some of the craft in charge to convey them to the dam, and that while racing up the river to reach the lock at the dam first the accident occurred.—*Troy Times.*

A Stupendous Hotel.

The proportions of the United States Hote at Saratoga are of a stupendous character. It is 1,400 feet in length, or more than a quarter of a mile long, covering 95,000 feet of earth, with sleeping accommodations for 1,200 guests, with 1,850 windows, 2,500 doors, miles of gas and water pipes, and constructed of upwards of 4,000,000 bricks. The entire cost is $900,000, of which the furniture cost $225,000; 30,000 yards of carpet are required to cover the floor. Steam pipes run through the building for use on a cold and unpleasant day. There are in it 768 lodging rooms, 500 of which are plumbed in the most substantial and modern style with stationary wash basins, etc. There are 65 suits of rooms, containing from one to seven lodging rooms with parlors, bath and water closets attached to each. The building occupies a plot of ground of seven acres in extent, in the form of an irregular pentagon.

New Baptist Church.

The new Baptist Church at Sing Sing, which was dedicated yesterday, is an imposing structure in the Gothic style of architecture, with a tower 180 feet high. The length of the building is 120 feet, with an audience room 80 feet long and 54 feet wide. The front window forms quite a feature of the building, being 32 feet in height and 12 in width. The church is lighted by ten windows of stained glass; eight of them are memorial windows given by D. D. Mangam, D. S. Mott, P. A. Anser, Elijah Hunter, W. A. Pentz, I. B. Moxon and John K. Clapp.

The new edifice cost $55,000, and the Society had besides this a debt of $35,000. The Rev. J. B. Wakeley, known as the begging divine of the Methodist Church, made one of his well known appeals during the afternoon, when the sum of $10,000 was raised on the spot. In the evening it was expected another call would be made.—*Po'keepsie Eagle.*

Mrs. Susannah Evans on Temperance.

This talented Welsh lady has been secured to speak on Temperance in Music Hall on Sunday afternoon at 3½ o'clock. Gen. Smith authorizes us also to announce that she will speak in the Rondout M. E. Church on Sunday evening at 7:45.

Mrs. Evans is so well known it is really unnecessary for us to speak of her qualifications, but she is an exceedingly pleasant speaker, possessed of a charming delivery, and thoroughly in earnest. The Herald, Brooklyn Union, World, Evening Post, Evangelist and other papers, speak of her in the highest terms.

Dio Lewis says of her: "I would not do the Temperance cause a greater service than by introducing Susannah Evans. Her lectures are full of deep, earnest thought, beautifully expressed and delivered in a chaste, ladylike manner."

Central & Hudson River Railroad.

The annual election of Directors of this road occurred on Wednesday, with the following result: Cornelius Vanderbilt, William Vanderbilt, William K. Vanderbilt, (new), Augustus Schell, Samuel F. Bayer, H. Henry Baxter, Joseph Harker, Chauncey M. Depew, (new), New York; Henry R. Pierson, Walter S. Church, (new), Albany; Chester W. Chapin, Springfield; George J. Whitney, Rochester; James M. Marvin, Saratoga Springs. Inspectors, Sidney T. Fairchild, Cazenovia; Lansing Prayn, Albany; Henry Roseboom, Roseboom—*Albany Times.*

—Poughkeepsie has a stone-yard, and requires each tramp soliciting alms to earn his food and lodging by breaking stone. Since the yard was established applications for charity have fallen off fifty per cent.

A Silver Wedding.

We learn from the Hudson County, N. J., Times of May 29th that the Rev. Dr. Stitt and wife were treated to a most agreeable surprise by the members of the Doctor's congregation on Saturday evening, May 23d, the twenty-fifth anniversary of their marriage, at the parsonage of the First Reformed Church of Bayonne, N. J. It appears that it had been the wish for a long time past of Dr. and Mrs. Stitt to celebrate the twenty-fifth anniversary of their wedded life, but having so recently moved among those who were comparatively strangers to them they had thought best to let the day pass without observance. Their congregation, learning this, determined that the day should be recognized. So on the afternoon of the 23d of May, while the reverend gentleman and his lady were supping with a neighbor, totally unconscious of what was going on in his own house, his parlors were rapidly filling with self-invited guests. About nine o'clock the Doctor and his wife arrived, walked into the hall, and as they opened the door leading into their darkened parlor the gas was turned up, disclosing to them a large concourse of their friends. Never was a surprise more complete. From the piano came the silvery notes of Mendelssohn's "Wedding March," which was almost completely drowned by applause. Before they could recover from their first surprise the Rev. Mr. Jones of Bergen Point stepped up to them, and after pleasantly speaking of the happy event which had occurred twenty-five years before, in behalf of their congregation presented them with a large and superbly wrought silver fruit-dish and fruit-spoon. The dish contained a number of bright and new silver dollars, and bore the following inscription: "To C. H. and M. A. Stitt, May 23d, 1849-74," on one side, and on the other, "From the First Reformed Church, Bayonne City, New Jersey." The gift was a magnificent one and in every respect worthy of its donors.

For a time Dr. Stitt was so overcome with feelings of gratitude that his tongue clove to the roof of his mouth.—But at length, in a very happy manner he thanked them all heartily for this new testimonial of their love and esteem for himself and wife. Surprise closely followed surprise. Before the happy couple had finished receiving the congratulations and good wishes which were showered upon them from all sides, they were lead into the dining-room, where they found a table which fairly groaned under the weight of a beautifully frosted bridal cake, ice cake and confectionery. The surprisers, after duly discussing the quality of the entertainment, and saying good night, at an early hour returned to their homes, feeling happy that they had had an opportunity for showing to their beloved pastor the esteem in which he and his family were held by them.

Saugerties Items.

Edson Finger is putting in quite a showy front to his feed store.

Colonel Pippins goes west next week. How sorry all the boys are to part with their friend, who renders the following stanza so beatifully;

"The corn is waving, Annie dear,
Oh meet me by the stile,
To hear thy gentle voice again;
Hiram, give us a s-m-i-l-e!"

The bridge crossing the Esopus Creek is in a very precarious condition. If we are not much mistaken it will yet be a bridge of sighs to this place. In a light wind it sways from side to side like a drunken man. We understand that the Hon. Wm. F. Russell is agitating the question of an iron bridge with our capitalists, but this is too good to be true. Saugerties never does anything until actually forced into it.

The Butzel boys have a young alligator. It was brought from Florida by Frank Pidgeon, Sr., of this place.

R. & O. R. R.

The following notice appears in the Utilitarian: A meeting of those interested in the Rondout & Oswego Railroad will be held at the Ackerly House, in Margaretville, on Thursday, June 11th, at 2 P. M., for the purpose of inquiring as to the causes which have led to its embarrassed condition; consulting as to whether any means can be devised to save the town from the total loss of their stock; and the consideration of such other topics as are pertinent to the subject.

A Freak of Nature.

Near the foot of the hill just to the north of the Marbletown post-office can be seen a chestnut tree of immense girth of trunk, that has growing from its trunk, about six feet from the ground, an elm about six inches in diameter, and there are no other elm trees within a considerable distance of the chestnut.

VICINITY.

—Catskill's Fire Department had its annual parade on Tuesday.

—The long bridge at Long Eddy was recently sold at auction for $1,000.

—Superintendent Fillinghart, of the Central & Hudson River Railroad, is lying very ill at Albany.

—A Newburgh girl was insulted in the the street the other night and straightway went and bought a revolver, and there will be a nice item if any one molests her again.

—Rev. John Quincy Adams, of the Baptist Church of Newburgh, writes the text for his Tuesday evening lecture on a blackboard.

—A corpse was found floating in the river at Poughkeepsie on Wednesday, which is supposed to be the remains of Abraham Stockwell, who mysteriously disappeared three years ago.

—A young man named Hook, who had been assisted while in need, by the members of Eastman's College Band in Poughkeepsie, decamped on Monday with a band coat worth forty dollars and a cornet valued at thirty-five dollars, the property of Samuel Gunn, who says the thief's name should have been Hooker and he is going Gunning for him.

—On Tuesday last a farmer in Austerlitz, by the name of Sprague, undertook by sharp words to compel his indentured servant to work a little faster than he was inclined, supplementing his orders by a moderate blow with a fork with which he was at work. The party thus assailed, being provoked, turned upon Sprague and knocked him down, when a third party interfering, Sprague recovered from his downfall and seizing the fork again, plunged it into the body of his servant, inflicting severe if not fatal injuries.—*Hudson Star.*

OUR FREE PARLIAMENT.

CITY OF KINGSTON, June 4, 1874.

EDITOR FREEMAN:—In your issue of the 2d instant I noticed a card over the name of George F. Kiersted with reference to the celebration of Decoration Day in this city. The writer shows such a lamentable amount of ignorance, as well as betrays such despicable meanness, that for the benefit of your many readers, who may not all be cognizant of the facts, I ask a small space in your paper for an explanation.

In the first place, then, I personally know that there was a carriage and an abundance of flowers set apart for the colored people. Col. Westbrook called on several colored men in the city urging them to take part in the exercises, offering them a place in the procession and soliciting them if they knew of any graves of colored soldiers not yet discovered, to send names and localities to the committee, and if any colored boy in blue was left out it was the fault of such men as George F. Kiersted, who kept in the background on Decoration Day and sought some days after to convey a wrong impression to the public mind, and excite animosities which should long ago have been buried beyond the possibility of a resurrection. Perhaps if he had exerted himself a little more last Saturday he would have less occasion to slander those who tried to do their duty on that solemn day.

I, for one, would tender, on behalf of the colored people of the City of Kingston, to Col. Westbrook and his noble assistants our deepfelt thanks for all their labors on Decoration Day, and repel the insinuation of the writer in your paper above mentioned that any dead soldier's graves not covered with flowers, simply because he carried a black instead of a white skin.

TO CURE A COUGH, to relieve all irritations of the throat, to restore perfect soundness and health to the most delicate organizations of the human frame—the lungs—use Dr. Wistar's Balsam of Wild Cherry, which is still prepared with the same care in the selecting and compounding of its various ingredients as when it was introduced to the public by Dr. Wistar over forty years ago.

Piles.

The unceasing torture from Internal, Bleeding, External and Itching Piles is fast wearing out thousands who are afflicted, their hope and courage having long since given place to despair. Let those who see this cheer up, for a mild and sure cure may be had by using Briggs' Pile Remedies. Sold by Druggists. Sold by Ike Hasbrouck, High Falls.

Headache.

How many ladies, young and old, are abject slaves to Headache, Neuralgia, etc., making them unfit to enjoy society, rendering life a burden, and robbing them of beauty, youth and amiability. Briggs' Allevantor is a pleasant and certain cure. Sold by Calvin Markle, Accord.

LARYNGITIS, OR CLERGYMAN'S SORE THROAT, is an inflamation of the Throat and Larynx, caused by over-exertion in speaking or singing, very often becoming chronic, attended with hoarseness and great difficulty in swallowing, and intense suffering in speaking. It often becomes very serious in cases of long standing, and death has frequently resulted from this disease. Burning, cauterizing and other severe methods of treatment are dangerous. BRIGGS' THROAT AND LUNG HEALER is a soothing an reliable remedy. Sold by R. Deyo, Rondout.

PILES may be caused by anything that will irritate the lower bowels, producing a determination of blood to the rectum, as drastic cathartics, from the extensive use of which, in past years, the disease has become very common, habitual constipation, straining at stool, diseases of the liver, much riding on horesback, tight stays, sedentary habits, high living, heating, irritating food, etc. USE BRIGG'S PILE REMEDIES. Sold by S. E. D. Hoornbeck, Wawarsing.

Corns.

Miracles are so common that we are no more surprised at the miraculous, but we are delighted to have our corns disappear and bunions cease to throb with pain, ingrowing nails no longer penetrate the flesh. All these benefits are secured by the use of Briggs' Miraculous Corn and Bunion Remedies. Sold by P. Gray, High Falls.

"Good morning, Susan; how do you dew?" "Very well, I thank you, but ma is almost dead with her bunions." "Well, I declare; I never heard she had such things, but they do say Briggs' Corn and Bunion Remedies are a sartin cure. All the drug stores have got some and say they sell awful fast." Sold by Dr. Lounsbery, Stone Ridge.

Dr. J. Briggs' Throat and Lung Healer is composed of Canada Balsam, Extract of Tamarac, and other Balsam, Gums, Roots, Plants, &c., which are combined in the most scientific manner. It is pleasant and more agreeable to take than any other in use. Old people like it, and babies cry for it. Sold by Van Deusen Bros., Rondout and Kingston.

Piles.

If it were possible to portray the torture endured by millions who are troubled with internal, bleeding, external and itching piles, the picture would not be a pleasant one. The agonies of the cursed cannot be worse, and from these sufferings there seems no escape. But science has demonstrated there is a remedy, safe and reliable. Dr. J. Briggs' Pile Remedies are the climax of medical science. Sold by J. G. Kemble, Stone Ridge.

AS CURATIVE AGENTS, the Balsamic virtues of the Wild Evergreen in the cure of the numerous diseases of the Throat, Lungs, Chest, Stomach, Liver and Kidneys, which always, in our ever-varying climate, prevail in a greater or less degree, are well-known; but the power of relieving, healing and curing these diseases is enhanced when, by scientific principles, it is combined with other ingredients of equal value as healing agents. Sold by Van Wagonen & Davis, Stone Ridge.

VINEGAR BITTERS

VEGETABLE — FREE FROM — PURELY — DR. WALKER'S CALIFORNIA — ALCOHOL — EUREKA — VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Agents Wanted for "TELL IT ALL"

By Mrs. T. B. H. Stenhouse, for 25 years wife of a Mormon High Priest. With an introduction by **HARRIET BEECHER STOWE.** Two years ago the author wrote a pamphlet on Polygamy which excited the Mormon newspapers to sneeringly invite her to write a book and **"Tell It All."** Eminent men and women urged her to accept the challenge, and **"Tell It All"** is the result. It is the only book on this subject ever written by a real Mormon woman. 625 pp. superbly illustrated and bound. It outsells all other books three to one. It takes like wildfire. **[F]** 100,000 will be sold. Agents, now is your opportunity. Our descriptive pamphlet, terms, &c., sent free to all. Address A. D. WORTHINGTON & CO., Hartford, Conn. ERIE RAILWAY

EASTERN DIVISION AND BRANCHES

The direct and popular Route from all parts of ORANGE and ULSTER Counties to NEW YORK CITY.

And the great through route to Buffalo, Niagara Falls, Chicago, Cincinnati, and all points WEST.

Rondout, May 1st, 1874.

The attention of the public is respectfully invited to our Spring opening of Carpets, Dress Fabrics, General Dry Goods and Housekeeping Articles, and we confidently believe that a fair inspection will demonstrate our Stock to be second to none in this city.

These goods are of recent purchase and our best judgment has been exerted in selection of styles, varieties and adaptation to the needs of this vicinity.

Every advantage to be gained from buying for Cash, and in discounts and differences on time bills, has been realized by us on these invoices, and as the old axiom "Goods well bought are half sold" is still a truism, we count on an active and satisfactory trade.

The practice of our firm in regard to marking profits is generally known, but we reiterate it here, as aiming for a large trade at small advances and with quick returns, rather than the old style of full profits, moderate sales, extended credits, and old goods held for original prices.

In the line of Carpets, we deem ourselves specially fortunate in having made almost an entire clearance at our annual stock taking (March 1st), and thus are not encumbered with old patterns, or hampered by necessity of sale of last year's goods at actual loss, but can offer our friends entirely fresh goods at prices now current. These goods are not bought in lots at few places, but culled from every leading stock in New York City that holds out an attraction or makes an extra inducement on price; and for variety, desirableness and cheapness, they are unexcelled in this city.

Our entire stock on main floor is unusually complete and attractive, and it will afford us pleasure to show you these Goods at your earliest convenience.

VINEGAR BITTERS

VEGETABLE — FREE FROM — PURELY — ALCOHOL — DE WALKER'S — CALIFORNIA — EUREKA

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

ERIE RAILWAY

EASTERN DIVISION AND BRANCHES

The direct and popular Route from all parts of ORANGE and ULSTER Counties to NEW YORK CITY.

And the great through route to Buffalo, Niagara Falls, Chicago, Cincinnati, and all points WEST.

Rondout, May 1st, 1874.

The attention of the public is respectfully invited to our Spring opening of Carpets, Dress Fabrics, General Dry Goods and Housekeeping Articles, and we confidently believe that a fair inspection will demonstrate our Stock to be second to none in this city.

These goods are of recent purchase and our best judgment has been exerted in selection of styles, varieties and adaption to the needs of this vicinity.

Every advantage to be gained from buying for Cash, and in discounts and differences on time bills, has been realized by us on these invoices, and as the old axiom "Goods well bought are half sold" is still a truism, we count on an active and satisfactory trade.

The practice of our firm in regard to marking profits is generally known, but we reiterate it here, as aiming for a large trade at small advances and with quick returns, rather than the old style of full profits, moderate sales, extended credits, and old goods held for original prices.

In the line of Carpets, we deem ourselves specially fortunate in having made almost an entire clearance at our annual stock taking (March 1st), and thus are not encumbered with old patterns, or hampered by necessity of sale of last year's goods at actual loss, but can offer our friends entirely fresh goods at prices now current. These goods are not bought in lots at few places, but culled from every leading stock in New York City that holds out an attraction or makes an extra inducement on price; and for variety, desirableness and cheapness, they are unexcelled in this city.

Our entire stock on main floor is unusually complete and attractive, and it will afford us pleasure to show you these Goods at your earliest convenience.

AGENTS WANTED FOR THE CENTENNIAL GAZETTEER OF THE UNITED STATES.

No book has ever been published of such *universal interest* to the American people. It appeals to no particular class *alone*, but to *all* classes; to men and women of all professions, creeds, occupations and political opinions—to Farmers, Lawyers, Business Men, Mechanics, Physicians, Politicians, Teachers, Students, Manufacturers, Salesmen, men of learning and men who can only read, to old and young. All want it as a book of constant reference, and to preserve for their children and children's children as the only complete and reliable work, showing the gigantic results of THE FIRST ONE HUNDRED YEARS OF THE GREATEST REPUBLIC THE WORLD EVER SAW. It is not a luxury but a necessity to every well-informed American citizen. Agents make $100 to $300 per month. Send for circular. ZIEGLER & McCURDY, Philadelphia, Pa. May 12w4
